

WEBVTT

NOTE duration:"00:59:50.0160000"

NOTE language:en-us

NOTE Confidence: 0.843429863452911

00:00:00.000 --> 00:00:04.322 And what an as as folks are logging in.

NOTE Confidence: 0.843429863452911

00:00:04.322 --> 00:00:06.294 Wanna welcome everyone again

NOTE Confidence: 0.843429863452911

00:00:06.294 --> 00:00:08.849 to Kansas in a grand rounds.

NOTE Confidence: 0.843429863452911

00:00:08.850 --> 00:00:11.170 The theme for today is

NOTE Confidence: 0.843429863452911

00:00:11.170 --> 00:00:13.480 an important one, namely global

NOTE Confidence: 0.843429863452911

00:00:13.480 --> 00:00:15.805 onkologie and obviously the our

NOTE Confidence: 0.843429863452911

00:00:15.805 --> 00:00:18.122 attention has been particularly drawn

NOTE Confidence: 0.843429863452911

00:00:18.122 --> 00:00:21.369 this year to the public health crisis.

NOTE Confidence: 0.843429863452911

00:00:21.370 --> 00:00:24.620 That's the kovid pandemic. But as many

NOTE Confidence: 0.843429863452911

00:00:24.620 --> 00:00:28.140 know really over the past several years.

NOTE Confidence: 0.843429863452911

00:00:28.140 --> 00:00:30.502 The National Cancer Institute.

NOTE Confidence: 0.843429863452911

00:00:30.502 --> 00:00:32.678 The World Health Organization.

NOTE Confidence: 0.843429863452911

00:00:32.680 --> 00:00:35.700 The American side of conchology ACR,

NOTE Confidence: 0.843429863452911

00:00:35.700 --> 00:00:38.209 among others, have really increasingly

NOTE Confidence: 0.843429863452911

00:00:38.210 --> 00:00:41.730 wanted us to emphasize elements of our

NOTE Confidence: 0.833768367767334

00:00:41.730 --> 00:00:44.253 work on the global needs.

NOTE Confidence: 0.833768367767334

00:00:44.253 --> 00:00:46.760 An global oncology Ann, and

NOTE Confidence: 0.833768367767334

00:00:46.760 --> 00:00:49.280 so it's really my privilege

NOTE Confidence: 0.82716961701711

00:00:49.280 --> 00:00:51.056 to introduce the introducer.

NOTE Confidence: 0.82716961701711

00:00:51.056 --> 00:00:54.264 For today's session I've I've had the

NOTE Confidence: 0.82716961701711

00:00:54.264 --> 00:00:56.448 privilege actually of working with

NOTE Confidence: 0.82716961701711

00:00:56.448 --> 00:00:58.588 Donna Spiegelman for many decades.

NOTE Confidence: 0.82716961701711

00:00:58.590 --> 00:01:01.156 I guess Don, as you know,

NOTE Confidence: 0.82716961701711

00:01:01.156 --> 00:01:02.870 is the Susan Dwight

NOTE Confidence: 0.823870241641998

00:01:02.870 --> 00:01:04.578 Bliss professor by statistics,

NOTE Confidence: 0.823870241641998

00:01:04.578 --> 00:01:05.859 the director for

NOTE Confidence: 0.823870241641998

00:01:05.860 --> 00:01:07.995 the Center of Methods and

NOTE Confidence: 0.823870241641998

00:01:07.995 --> 00:01:09.703 Implementation and Prevention Science,

NOTE Confidence: 0.823870241641998

00:01:09.710 --> 00:01:11.855 the director of the Interdisciplinary

NOTE Confidence: 0.823870241641998

00:01:11.855 --> 00:01:14.422 Research Methods Core for the Center
NOTE Confidence: 0.823870241641998

00:01:14.422 --> 00:01:16.126 for Interdisciplinary Research on
NOTE Confidence: 0.823870241641998

00:01:16.130 --> 00:01:18.698 AIDS, and particularly relevant to today.
NOTE Confidence: 0.823870241641998

00:01:18.700 --> 00:01:20.840 The Assistant Cancer Center director
NOTE Confidence: 0.823870241641998

00:01:20.840 --> 00:01:22.950 for global oncology, Dana has.
NOTE Confidence: 0.823870241641998

00:01:22.950 --> 00:01:24.110 Legions of accomplishments,
NOTE Confidence: 0.823870241641998

00:01:24.110 --> 00:01:26.356 but they include her or productive
NOTE Confidence: 0.823870241641998

00:01:26.356 --> 00:01:27.852 work and global ecology,
NOTE Confidence: 0.823870241641998

00:01:27.852 --> 00:01:30.470 and I'll turn it over to Donna
NOTE Confidence: 0.823870241641998

00:01:30.470 --> 00:01:31.966 to introduce today's speaker.
NOTE Confidence: 0.875739336013794

00:01:32.750 --> 00:01:35.180 Thanks so much Charlie and indeed
NOTE Confidence: 0.875739336013794

00:01:35.180 --> 00:01:37.963 it's been a pleasure working with you
NOTE Confidence: 0.875739336013794

00:01:37.963 --> 00:01:40.940 both at Harvard and now here at Yale.
NOTE Confidence: 0.875739336013794

00:01:40.940 --> 00:01:43.222 And thank you so much for supporting
NOTE Confidence: 0.875739336013794

00:01:43.222 --> 00:01:45.058 my work and interest through
NOTE Confidence: 0.875739336013794

00:01:45.058 --> 00:01:47.422 connecting me to the Cancer Center

NOTE Confidence: 0.875739336013794
00:01:47.422 --> 00:01:49.908 in the global oncology program.
NOTE Confidence: 0.875739336013794
00:01:49.910 --> 00:01:53.030 This is our 2nd of this academic years.
NOTE Confidence: 0.875739336013794
00:01:53.030 --> 00:01:55.518 Yale Cancer Center grounds.
NOTE Confidence: 0.875739336013794
00:01:55.518 --> 00:01:59.250 I'm global Oncologix our first one.
NOTE Confidence: 0.875739336013794
00:01:59.250 --> 00:02:02.157 We had an in person this pre covid Dr
NOTE Confidence: 0.875739336013794
00:02:02.157 --> 00:02:05.337 Jorge Sam around from Unum universe
NOTE Confidence: 0.875739336013794
00:02:05.337 --> 00:02:07.005 National University Autonomous
NOTE Confidence: 0.875739336013794
00:02:07.005 --> 00:02:09.967 University of Mexico City and the
NOTE Confidence: 0.875739336013794
00:02:09.967 --> 00:02:12.625 National Institute of Health of Mexico.
NOTE Confidence: 0.875739336013794
00:02:12.630 --> 00:02:15.534 Who has been doing work for many many
NOTE Confidence: 0.875739336013794
00:02:15.534 --> 00:02:18.525 years on cervical cancer prevention and
NOTE Confidence: 0.875739336013794
00:02:18.525 --> 00:02:21.795 screening and we're continuing to work
NOTE Confidence: 0.875739336013794
00:02:21.879 --> 00:02:25.119 with him along with colleagues in a pool.
NOTE Confidence: 0.875739336013794
00:02:25.120 --> 00:02:26.908 Today we're very pleased
NOTE Confidence: 0.875739336013794
00:02:26.908 --> 00:02:29.590 to get a very big picture.
NOTE Confidence: 0.875739336013794

00:02:29.590 --> 00:02:30.673 Type of you,
NOTE Confidence: 0.875739336013794

00:02:30.673 --> 00:02:32.478 which I'm really excited about
NOTE Confidence: 0.875739336013794

00:02:32.478 --> 00:02:34.639 by having our guest Doug Pyle,
NOTE Confidence: 0.875739336013794

00:02:34.640 --> 00:02:36.518 who unfortunately we can wine and
NOTE Confidence: 0.875739336013794

00:02:36.518 --> 00:02:38.620 dine except in our imaginations.
NOTE Confidence: 0.875739336013794

00:02:38.620 --> 00:02:40.930 But we're so happy to have him
NOTE Confidence: 0.875739336013794

00:02:40.930 --> 00:02:42.950 today for this zoom seminar.
NOTE Confidence: 0.875739336013794

00:02:42.950 --> 00:02:45.008 He's the vice president of International
NOTE Confidence: 0.875739336013794

00:02:45.008 --> 00:02:47.220 Affairs at the American Society of
NOTE Confidence: 0.875739336013794

00:02:47.220 --> 00:02:49.128 Clinical Oncology, well known as ASCO,
NOTE Confidence: 0.875739336013794

00:02:49.128 --> 00:02:51.852 and each of us today for a discussion
NOTE Confidence: 0.875739336013794

00:02:51.852 --> 00:02:53.776 centered around global oncology.
NOTE Confidence: 0.875739336013794

00:02:53.780 --> 00:02:55.688 He graduated with his MBA from
NOTE Confidence: 0.875739336013794

00:02:55.688 --> 00:02:57.750 the Yale School of Management.
NOTE Confidence: 0.875739336013794

00:02:57.750 --> 00:02:59.928 We also found out this morning
NOTE Confidence: 0.875739336013794

00:02:59.928 --> 00:03:01.380 at a very early.

NOTE Confidence: 0.875739336013794
00:03:01.380 --> 00:03:02.505 Meeting morning call.
NOTE Confidence: 0.875739336013794
00:03:02.505 --> 00:03:05.750 He was so kind to have with myself,
NOTE Confidence: 0.875739336013794
00:03:05.750 --> 00:03:08.126 Melinda Irwin and Marcella Nunez Smith,
NOTE Confidence: 0.875739336013794
00:03:08.130 --> 00:03:10.632 also leading various related efforts with
NOTE Confidence: 0.875739336013794
00:03:10.632 --> 00:03:13.849 the El Cancer Center that his wife did
NOTE Confidence: 0.875739336013794
00:03:13.849 --> 00:03:16.069 her pediatric residency here at Yale,
NOTE Confidence: 0.875739336013794
00:03:16.070 --> 00:03:17.177 so New Haven,
NOTE Confidence: 0.875739336013794
00:03:17.177 --> 00:03:19.022 Yale is something he's part
NOTE Confidence: 0.875739336013794
00:03:19.022 --> 00:03:21.230 of our community as well.
NOTE Confidence: 0.875739336013794
00:03:21.230 --> 00:03:23.220 And after Yale School management,
NOTE Confidence: 0.875739336013794
00:03:23.220 --> 00:03:26.419 he went on to become Director of
NOTE Confidence: 0.875739336013794
00:03:26.419 --> 00:03:27.790 Business Solutions International
NOTE Confidence: 0.875739336013794
00:03:27.860 --> 00:03:29.755 Services for the American Red
NOTE Confidence: 0.875739336013794
00:03:29.755 --> 00:03:32.360 Cross and then joined as Co in 20.
NOTE Confidence: 0.875739336013794
00:03:32.360 --> 00:03:34.450 Seven he is responsible for
NOTE Confidence: 0.875739336013794

00:03:34.450 --> 00:03:36.122 directing its international programs.

NOTE Confidence: 0.875739336013794

00:03:36.130 --> 00:03:37.965 An invite advising the society

NOTE Confidence: 0.875739336013794

00:03:37.965 --> 00:03:40.860 on the needs and interests of its

NOTE Confidence: 0.875739336013794

00:03:40.860 --> 00:03:42.836 international members and constituents.

NOTE Confidence: 0.875739336013794

00:03:42.840 --> 00:03:46.160 He has more than 25 years of experience

NOTE Confidence: 0.875739336013794

00:03:46.160 --> 00:03:48.700 in international affairs in the public,

NOTE Confidence: 0.875739336013794

00:03:48.700 --> 00:03:51.310 nonprofit in corporate center sectors.

NOTE Confidence: 0.875739336013794

00:03:51.310 --> 00:03:53.698 Um earlier earlier in his career,

NOTE Confidence: 0.875739336013794

00:03:53.700 --> 00:03:56.059 he was the vice President and Chief

NOTE Confidence: 0.875739336013794

00:03:56.059 --> 00:03:58.611 Operating Officer for the Center for

NOTE Confidence: 0.875739336013794

00:03:58.611 --> 00:04:00.090 International Rehab Rehabilitation.

NOTE Confidence: 0.875739336013794

00:04:00.090 --> 00:04:02.265 The manager for strategic planning

NOTE Confidence: 0.875739336013794

00:04:02.265 --> 00:04:04.440 and business development for the

NOTE Confidence: 0.875739336013794

00:04:04.510 --> 00:04:06.070 US sub Spirit City Area,

NOTE Confidence: 0.875739336013794

00:04:06.070 --> 00:04:07.955 East Side and administered technical

NOTE Confidence: 0.875739336013794

00:04:07.955 --> 00:04:10.332 assistance projects funded by the US

NOTE Confidence: 0.875739336013794
00:04:10.332 --> 00:04:12.056 Agency for International Development,
NOTE Confidence: 0.875739336013794
00:04:12.060 --> 00:04:12.670 USA, ID.
NOTE Confidence: 0.875739336013794
00:04:12.670 --> 00:04:14.500 Today's talk is Co sponsored by
NOTE Confidence: 0.875739336013794
00:04:14.500 --> 00:04:17.046 the El School Public Health Center
NOTE Confidence: 0.875739336013794
00:04:17.046 --> 00:04:18.914 for Methods and Implementation
NOTE Confidence: 0.875739336013794
00:04:18.914 --> 00:04:20.440 in prevention science.
NOTE Confidence: 0.875739336013794
00:04:20.440 --> 00:04:21.256 See Maps,
NOTE Confidence: 0.875739336013794
00:04:21.256 --> 00:04:22.480 which I lead.
NOTE Confidence: 0.875739336013794
00:04:22.480 --> 00:04:24.937 And I'm very excited to turn things
NOTE Confidence: 0.875739336013794
00:04:24.937 --> 00:04:27.588 over to Doug to let the audience
NOTE Confidence: 0.875739336013794
00:04:27.588 --> 00:04:29.488 know you can write questions
NOTE Confidence: 0.875739336013794
00:04:29.488 --> 00:04:31.779 and comments in the chat box.
NOTE Confidence: 0.875739336013794
00:04:31.780 --> 00:04:34.454 I'm not sure if it's possible to
NOTE Confidence: 0.875739336013794
00:04:34.454 --> 00:04:36.620 actually activate so you can talk,
NOTE Confidence: 0.875739336013794
00:04:36.620 --> 00:04:38.986 but Charlie and I are both monitoring
NOTE Confidence: 0.875739336013794

00:04:38.986 --> 00:04:41.637 the chat box and we welcome your
NOTE Confidence: 0.875739336013794

00:04:41.637 --> 00:04:43.989 comments and we will potentially check
NOTE Confidence: 0.875739336013794

00:04:44.060 --> 00:04:46.664 in with Doug at suitable times to
NOTE Confidence: 0.875739336013794

00:04:46.664 --> 00:04:48.564 inject your questions and comments.
NOTE Confidence: 0.875739336013794

00:04:48.564 --> 00:04:50.524 And presumably they'll be some
NOTE Confidence: 0.875739336013794

00:04:50.524 --> 00:04:52.912 time at the end as well, so.
NOTE Confidence: 0.875739336013794

00:04:52.912 --> 00:04:54.120 Thank you very much,
NOTE Confidence: 0.833610534667969

00:04:54.120 --> 00:04:55.996 Doug. We're looking forward to your talk.
NOTE Confidence: 0.83514004945755

00:04:56.910 --> 00:04:58.446 Now this is great.
NOTE Confidence: 0.83514004945755

00:04:58.446 --> 00:05:01.209 I've been really looking forward to this
NOTE Confidence: 0.83514004945755

00:05:01.209 --> 00:05:03.883 and thanks so much for the invitation.
NOTE Confidence: 0.83514004945755

00:05:03.890 --> 00:05:06.994 I'm delighted to talk on. Yeah, I agree.
NOTE Confidence: 0.83514004945755

00:05:06.994 --> 00:05:08.835 Important topic, just real quick.
NOTE Confidence: 0.83514004945755

00:05:08.835 --> 00:05:11.320 My also I don't know if you
NOTE Confidence: 0.83514004945755

00:05:11.407 --> 00:05:13.587 can see but I'm channeling.
NOTE Confidence: 0.83514004945755

00:05:13.590 --> 00:05:14.793 It's blocked out.

NOTE Confidence: 0.83514004945755

00:05:14.793 --> 00:05:17.199 I'm channeling my New Haven by

NOTE Confidence: 0.83514004945755

00:05:17.199 --> 00:05:19.799 having my 1990s era Doodle mug here.

NOTE Confidence: 0.83514004945755

00:05:19.800 --> 00:05:22.736 So your first see me question is how

NOTE Confidence: 0.83514004945755

00:05:22.736 --> 00:05:25.969 many of you know what the Yankee Doodle

NOTE Confidence: 0.83514004945755

00:05:25.969 --> 00:05:29.904 Diner was in the wave in which I guess, is?

NOTE Confidence: 0.83514004945755

00:05:29.904 --> 00:05:30.712 Since closed,

NOTE Confidence: 0.83514004945755

00:05:30.712 --> 00:05:34.460 I had to I had to look that up.

NOTE Confidence: 0.83514004945755

00:05:34.460 --> 00:05:36.182 But glad to be here and dive

NOTE Confidence: 0.83514004945755

00:05:36.182 --> 00:05:38.099 right in so Donna and Charlie,

NOTE Confidence: 0.83514004945755

00:05:38.100 --> 00:05:39.804 yet let me know what kind

NOTE Confidence: 0.83514004945755

00:05:39.804 --> 00:05:41.180 of questions are coming up.

NOTE Confidence: 0.83514004945755

00:05:41.180 --> 00:05:43.980 And also let me know how I'm doing on timing.

NOTE Confidence: 0.83514004945755

00:05:43.980 --> 00:05:46.500 I got a lot of stuff to go through.

NOTE Confidence: 0.83514004945755

00:05:46.500 --> 00:05:48.372 We want to make sure that we have

NOTE Confidence: 0.83514004945755

00:05:48.372 --> 00:05:49.716 plenty of time for discussion

NOTE Confidence: 0.83514004945755

00:05:49.716 --> 00:05:52.003 'cause I want to hear what the Yale
NOTE Confidence: 0.83514004945755

00:05:52.003 --> 00:05:53.929 Community thinks about some of these
NOTE Confidence: 0.83514004945755

00:05:53.929 --> 00:05:55.935 themes were going to talk about.
NOTE Confidence: 0.83514004945755

00:05:55.935 --> 00:05:56.970 You're my dispute.
NOTE Confidence: 0.83514004945755

00:05:56.970 --> 00:05:57.760 I'm sorry
NOTE Confidence: 0.808524370193481

00:05:57.760 --> 00:06:00.904 I said OK, I'll keep an eye on
NOTE Confidence: 0.808524370193481

00:06:00.910 --> 00:06:03.241 the time for you Doug great thank
NOTE Confidence: 0.808524370193481

00:06:03.241 --> 00:06:06.030 you so no conflicts to disclose.
NOTE Confidence: 0.808524370193481

00:06:06.030 --> 00:06:08.400 So here are my learning objectives.
NOTE Confidence: 0.808524370193481

00:06:08.400 --> 00:06:10.365 Give you talking bout the
NOTE Confidence: 0.808524370193481

00:06:10.365 --> 00:06:11.937 overall global cancer trends,
NOTE Confidence: 0.808524370193481

00:06:11.940 --> 00:06:15.315 mainly in the context of the rise of non
NOTE Confidence: 0.808524370193481

00:06:15.315 --> 00:06:17.468 communicable diseases or NCD's primary
NOTE Confidence: 0.808524370193481

00:06:17.468 --> 00:06:20.800 primarily in low and middle income countries.
NOTE Confidence: 0.808524370193481

00:06:20.800 --> 00:06:24.055 I'm gonna talk about Ask's overall strategy
NOTE Confidence: 0.808524370193481

00:06:24.055 --> 00:06:27.578 and programs to help address these trends.

NOTE Confidence: 0.808524370193481

00:06:27.580 --> 00:06:30.694 Then I'm going to get him to the impact

NOTE Confidence: 0.808524370193481

00:06:30.694 --> 00:06:33.647 of the pandemic on Askos response and

NOTE Confidence: 0.808524370193481

00:06:33.647 --> 00:06:36.900 what are some of the silver lining?

NOTE Confidence: 0.808524370193481

00:06:36.900 --> 00:06:39.432 Some of the opportunities for innovation

NOTE Confidence: 0.808524370193481

00:06:39.432 --> 00:06:41.934 that we discovered during this time

NOTE Confidence: 0.808524370193481

00:06:41.934 --> 00:06:44.184 and then looking beyond the pandemic.

NOTE Confidence: 0.808524370193481

00:06:44.190 --> 00:06:46.240 Looking at reviewing Ask's position

NOTE Confidence: 0.808524370193481

00:06:46.240 --> 00:06:49.134 on the future of global on College

NOTE Confidence: 0.808524370193481

00:06:49.134 --> 00:06:51.069 B as an academic discipline.

NOTE Confidence: 0.808524370193481

00:06:51.070 --> 00:06:52.435 Why that's important.

NOTE Confidence: 0.808524370193481

00:06:52.435 --> 00:06:55.165 And as goes role in supporting

NOTE Confidence: 0.808524370193481

00:06:55.165 --> 00:06:56.982 Cleveland Cology So first,

NOTE Confidence: 0.808524370193481

00:06:56.982 --> 00:06:59.508 starting with the global picture here.

NOTE Confidence: 0.808524370193481

00:06:59.510 --> 00:07:02.352 So I'd like to start actually with

NOTE Confidence: 0.808524370193481

00:07:02.352 --> 00:07:04.978 the global burden of Disease Study,

NOTE Confidence: 0.808524370193481

00:07:04.980 --> 00:07:07.470 a landmark study that was published
NOTE Confidence: 0.808524370193481

00:07:07.470 --> 00:07:09.610 in The Lancet in 2012.
NOTE Confidence: 0.808524370193481

00:07:09.610 --> 00:07:11.500 The really documented this global
NOTE Confidence: 0.808524370193481

00:07:11.500 --> 00:07:13.947 health shift from child and maternal
NOTE Confidence: 0.808524370193481

00:07:13.947 --> 00:07:15.927 health and infectious diseases,
NOTE Confidence: 0.808524370193481

00:07:15.930 --> 00:07:17.526 which is, I think,
NOTE Confidence: 0.808524370193481

00:07:17.526 --> 00:07:20.560 how most people think of global health.
NOTE Confidence: 0.808524370193481

00:07:20.560 --> 00:07:23.507 Two non communicable diseases or N CDs,
NOTE Confidence: 0.808524370193481

00:07:23.510 --> 00:07:24.430 including cancer.
NOTE Confidence: 0.808524370193481

00:07:24.430 --> 00:07:28.110 And so you can see this shift here,
NOTE Confidence: 0.808524370193481

00:07:28.110 --> 00:07:30.924 just kind of comparing these two columns.
NOTE Confidence: 0.808524370193481

00:07:30.930 --> 00:07:34.442 1990 and 2010 and looking at the main
NOTE Confidence: 0.808524370193481

00:07:34.442 --> 00:07:37.430 risk factors for disease in in 2010,
NOTE Confidence: 0.808524370193481

00:07:37.430 --> 00:07:39.932 these are the top risk factors
NOTE Confidence: 0.808524370193481

00:07:39.932 --> 00:07:42.619 an all of them relate to.
NOTE Confidence: 0.808524370193481

00:07:42.620 --> 00:07:43.227 NCD's.

NOTE Confidence: 0.808524370193481
00:07:43.227 --> 00:07:46.869 Most of them relate to cancer.
NOTE Confidence: 0.808524370193481
00:07:46.870 --> 00:07:49.166 So is in this context that ASCO
NOTE Confidence: 0.808524370193481
00:07:49.166 --> 00:07:51.379 came together with a host of
NOTE Confidence: 0.808524370193481
00:07:51.379 --> 00:07:52.919 organizations around the world,
NOTE Confidence: 0.808524370193481
00:07:52.920 --> 00:07:54.300 not only in cancer,
NOTE Confidence: 0.808524370193481
00:07:54.300 --> 00:07:56.827 but we partnered with our friends at
NOTE Confidence: 0.808524370193481
00:07:56.827 --> 00:07:58.777 cardiology and across other societies
NOTE Confidence: 0.808524370193481
00:07:58.777 --> 00:08:01.047 to really press for the importance
NOTE Confidence: 0.808524370193481
00:08:01.047 --> 00:08:03.599 of a UN high level meeting on CDs.
NOTE Confidence: 0.808524370193481
00:08:03.600 --> 00:08:05.380 So why is this important?
NOTE Confidence: 0.808524370193481
00:08:05.380 --> 00:08:08.240 So the UN at the time at only held one
NOTE Confidence: 0.808524370193481
00:08:08.322 --> 00:08:11.010 other high level meeting on a health
NOTE Confidence: 0.808524370193481
00:08:11.010 --> 00:08:14.279 topic and that was during the AIDS crisis.
NOTE Confidence: 0.808524370193481
00:08:14.280 --> 00:08:16.800 So that gives you a sense of the
NOTE Confidence: 0.808524370193481
00:08:16.800 --> 00:08:19.279 importance of these high level meetings.
NOTE Confidence: 0.808524370193481

00:08:19.280 --> 00:08:22.360 And invite the meeting was held in 2011.
NOTE Confidence: 0.808524370193481

00:08:22.360 --> 00:08:24.971 The world came together and the reason
NOTE Confidence: 0.808524370193481

00:08:24.971 --> 00:08:27.347 I'm pointing this out is because
NOTE Confidence: 0.808524370193481

00:08:27.347 --> 00:08:29.317 this was a transformative moment
NOTE Confidence: 0.808524370193481

00:08:29.317 --> 00:08:31.290 when cancer was really recognized
NOTE Confidence: 0.808524370193481

00:08:31.290 --> 00:08:33.901 as a global health priority is not
NOTE Confidence: 0.808524370193481

00:08:33.910 --> 00:08:36.220 only a disease of rich countries,
NOTE Confidence: 0.808524370193481

00:08:36.220 --> 00:08:38.677 but really seen as a global health
NOTE Confidence: 0.808524370193481

00:08:38.677 --> 00:08:40.840 issue along with other diseases,
NOTE Confidence: 0.808524370193481

00:08:40.840 --> 00:08:43.150 including in the NCD kind of
NOTE Confidence: 0.808524370193481

00:08:43.150 --> 00:08:44.690 framework in the world,
NOTE Confidence: 0.808524370193481

00:08:44.690 --> 00:08:47.434 came together and it set a world target
NOTE Confidence: 0.808524370193481

00:08:47.434 --> 00:08:50.150 to reduce overall NCD mortality rates.
NOTE Confidence: 0.808524370193481

00:08:50.150 --> 00:08:56.066 By 25% by 2025. So it's now 2020.
NOTE Confidence: 0.808524370193481

00:08:56.066 --> 00:08:58.578 Anne, how are we doing?
NOTE Confidence: 0.808524370193481

00:08:58.578 --> 00:08:59.583 Well, unfortunately,

NOTE Confidence: 0.808524370193481

00:08:59.583 --> 00:09:04.110 the gains that we saw early on an NCD.

NOTE Confidence: 0.808524370193481

00:09:04.110 --> 00:09:08.676 Mortality rates reduction are slowing so.

NOTE Confidence: 0.808524370193481

00:09:08.680 --> 00:09:13.648 Up till 2010 to the reduction is about 1.6.

NOTE Confidence: 0.808524370193481

00:09:13.650 --> 00:09:16.856 Percent per year and that gave us

NOTE Confidence: 0.808524370193481

00:09:16.856 --> 00:09:19.224 optimism that 25% was achievable.

NOTE Confidence: 0.808524370193481

00:09:19.224 --> 00:09:22.206 Since then it has been slow

NOTE Confidence: 0.808524370193481

00:09:22.206 --> 00:09:25.210 to about little more than 1%.

NOTE Confidence: 0.808524370193481

00:09:25.210 --> 00:09:26.224 Why is that?

NOTE Confidence: 0.808524370193481

00:09:26.224 --> 00:09:26.562 Well,

NOTE Confidence: 0.808524370193481

00:09:26.562 --> 00:09:30.060 this could be a topic for hold another talk,

NOTE Confidence: 0.808524370193481

00:09:30.060 --> 00:09:32.298 but in the factors are complex.

NOTE Confidence: 0.832892000675201

00:09:32.300 --> 00:09:34.160 One of them, of course,

NOTE Confidence: 0.832892000675201

00:09:34.160 --> 00:09:37.160 is that these this NCD burden is hitting

NOTE Confidence: 0.832892000675201

00:09:37.160 --> 00:09:39.759 countries that in fact are in transition.

NOTE Confidence: 0.832892000675201

00:09:39.760 --> 00:09:41.842 So there are facing infectious diseases

NOTE Confidence: 0.832892000675201

00:09:41.842 --> 00:09:44.944 and they have a health system is calibrated

NOTE Confidence: 0.832892000675201

00:09:44.944 --> 00:09:47.410 to address infectious diseases at the

NOTE Confidence: 0.832892000675201

00:09:47.473 --> 00:09:50.249 same time they need to re calibrate their

NOTE Confidence: 0.832892000675201

00:09:50.249 --> 00:09:52.482 health system to address the NCD's.

NOTE Confidence: 0.832892000675201

00:09:52.482 --> 00:09:55.480 But one other dynamic I just want to.

NOTE Confidence: 0.832892000675201

00:09:55.480 --> 00:09:57.928 Slide that is interesting is there

NOTE Confidence: 0.832892000675201

00:09:57.928 --> 00:10:01.608 is a shift in the risk factor trends,

NOTE Confidence: 0.832892000675201

00:10:01.610 --> 00:10:04.328 so this is again WHO data.

NOTE Confidence: 0.832892000675201

00:10:04.330 --> 00:10:06.920 And when we look at some of

NOTE Confidence: 0.832892000675201

00:10:06.920 --> 00:10:09.120 the risk factors France, DDS,

NOTE Confidence: 0.832892000675201

00:10:09.120 --> 00:10:11.580 so you see that alcohol consumption

NOTE Confidence: 0.832892000675201

00:10:11.580 --> 00:10:13.879 has ticked up a little bit.

NOTE Confidence: 0.832892000675201

00:10:13.880 --> 00:10:17.064 Not too dramatic, but has risen a bit.

NOTE Confidence: 0.832892000675201

00:10:17.070 --> 00:10:19.055 While it appears that tobacco

NOTE Confidence: 0.832892000675201

00:10:19.055 --> 00:10:20.246 use is declining,

NOTE Confidence: 0.832892000675201

00:10:20.250 --> 00:10:23.426 that rate of decline is starting to slow,

NOTE Confidence: 0.832892000675201
00:10:23.430 --> 00:10:25.818 which is concerning and then obesity.
NOTE Confidence: 0.832892000675201
00:10:25.820 --> 00:10:26.614 You know,
NOTE Confidence: 0.832892000675201
00:10:26.614 --> 00:10:30.200 when we talk about cancer and other end CDs,
NOTE Confidence: 0.832892000675201
00:10:30.200 --> 00:10:32.986 we don't talk very often about obesity.
NOTE Confidence: 0.832892000675201
00:10:32.990 --> 00:10:34.450 But this is a.
NOTE Confidence: 0.832892000675201
00:10:34.450 --> 00:10:37.512 Diet is changing and this is a growing
NOTE Confidence: 0.832892000675201
00:10:37.512 --> 00:10:41.150 risk factor and you can see this not only.
NOTE Confidence: 0.832892000675201
00:10:41.150 --> 00:10:43.550 Globally, but in in regions that
NOTE Confidence: 0.832892000675201
00:10:43.550 --> 00:10:45.870 you may not necessarily think of,
NOTE Confidence: 0.832892000675201
00:10:45.870 --> 00:10:47.830 such as the African region,
NOTE Confidence: 0.832892000675201
00:10:47.830 --> 00:10:50.539 so these are shifts in risk factors
NOTE Confidence: 0.832892000675201
00:10:50.539 --> 00:10:52.150 that are driving this.
NOTE Confidence: 0.832892000675201
00:10:52.150 --> 00:10:54.074 This change taken together.
NOTE Confidence: 0.832892000675201
00:10:54.074 --> 00:10:55.517 Cancer of course,
NOTE Confidence: 0.832892000675201
00:10:55.520 --> 00:10:57.124 along with cardiovascular diseases,
NOTE Confidence: 0.832892000675201

00:10:57.124 --> 00:11:00.219 are the number one killer in the world,
NOTE Confidence: 0.832892000675201

00:11:00.220 --> 00:11:02.175 and it's projected to grow
NOTE Confidence: 0.832892000675201

00:11:02.175 --> 00:11:02.957 quite dramatically.
NOTE Confidence: 0.832892000675201

00:11:02.960 --> 00:11:06.038 And most of this growth is going to be
NOTE Confidence: 0.832892000675201

00:11:06.038 --> 00:11:08.838 hitting low and middle income countries,
NOTE Confidence: 0.832892000675201

00:11:08.840 --> 00:11:11.283 so both in terms of new cases
NOTE Confidence: 0.832892000675201

00:11:11.283 --> 00:11:13.549 of cancer and cancer deaths,
NOTE Confidence: 0.832892000675201

00:11:13.550 --> 00:11:15.797 the bulk of that growth is going
NOTE Confidence: 0.832892000675201

00:11:15.797 --> 00:11:18.503 to be in the countries they can
NOTE Confidence: 0.832892000675201

00:11:18.503 --> 00:11:20.993 least afford it and where it's
NOTE Confidence: 0.832892000675201

00:11:21.076 --> 00:11:23.346 going to be most challenging.
NOTE Confidence: 0.832892000675201

00:11:23.350 --> 00:11:25.370 Now we can draw it.
NOTE Confidence: 0.832892000675201

00:11:25.370 --> 00:11:26.312 Drill into.
NOTE Confidence: 0.832892000675201

00:11:26.312 --> 00:11:29.609 Specific diseases here you can see that
NOTE Confidence: 0.832892000675201

00:11:29.609 --> 00:11:32.826 the incidence rates of specific cancer
NOTE Confidence: 0.832892000675201

00:11:32.826 --> 00:11:36.187 diseases are higher in high income

NOTE Confidence: 0.832892000675201

00:11:36.187 --> 00:11:39.257 countries than low income countries.

NOTE Confidence: 0.832892000675201

00:11:39.260 --> 00:11:43.324 I would caution a bit on this data,

NOTE Confidence: 0.832892000675201

00:11:43.330 --> 00:11:45.870 so a couple of issues.

NOTE Confidence: 0.832892000675201

00:11:45.870 --> 00:11:47.373 One of course,

NOTE Confidence: 0.832892000675201

00:11:47.373 --> 00:11:50.379 is the pathology capacity and low

NOTE Confidence: 0.832892000675201

00:11:50.379 --> 00:11:53.758 income countries is a challenge and so

NOTE Confidence: 0.832892000675201

00:11:53.758 --> 00:11:57.079 the actual the true incidence rate.

NOTE Confidence: 0.832892000675201

00:11:57.080 --> 00:11:59.715 In low income countries will

NOTE Confidence: 0.832892000675201

00:11:59.715 --> 00:12:01.823 likely be be higher.

NOTE Confidence: 0.832892000675201

00:12:01.830 --> 00:12:04.056 But then in also in low income

NOTE Confidence: 0.832892000675201

00:12:04.056 --> 00:12:06.268 countries that the data and cancer

NOTE Confidence: 0.832892000675201

00:12:06.268 --> 00:12:08.253 registries is a major limitation.

NOTE Confidence: 0.832892000675201

00:12:08.260 --> 00:12:11.044 So we just you have to take the

NOTE Confidence: 0.832892000675201

00:12:11.044 --> 00:12:13.607 data with with a grain of salt.

NOTE Confidence: 0.832892000675201

00:12:13.610 --> 00:12:15.734 But looking at the mortality rates

NOTE Confidence: 0.832892000675201

00:12:15.734 --> 00:12:18.586 you can see that in many of the
NOTE Confidence: 0.832892000675201

00:12:18.586 --> 00:12:20.626 cancer types the mortality rate is
NOTE Confidence: 0.832892000675201

00:12:20.704 --> 00:12:23.592 the same or higher than in the high
NOTE Confidence: 0.832892000675201

00:12:23.592 --> 00:12:25.672 income countries and and then just
NOTE Confidence: 0.832892000675201

00:12:25.672 --> 00:12:28.250 kind of looking down at cervical cancer.
NOTE Confidence: 0.832892000675201

00:12:28.250 --> 00:12:30.730 Now we want to take some time here
NOTE Confidence: 0.832892000675201

00:12:30.730 --> 00:12:32.940 to pause with cervical cancer.
NOTE Confidence: 0.832892000675201

00:12:32.940 --> 00:12:35.362 The course the incidence rate is much
NOTE Confidence: 0.832892000675201

00:12:35.362 --> 00:12:37.482 higher for cervical cancer in low
NOTE Confidence: 0.832892000675201

00:12:37.482 --> 00:12:39.182 income countries and the mortality
NOTE Confidence: 0.832892000675201

00:12:39.182 --> 00:12:41.378 rate is is significantly higher.
NOTE Confidence: 0.832892000675201

00:12:41.380 --> 00:12:45.475 And when we look at sort of a map.
NOTE Confidence: 0.832892000675201

00:12:45.480 --> 00:12:48.833 You can see that in Sub Sahara
NOTE Confidence: 0.832892000675201

00:12:48.833 --> 00:12:52.188 Africa this is a mortality data.
NOTE Confidence: 0.832892000675201

00:12:52.190 --> 00:12:54.770 By the way, mortality rates.
NOTE Confidence: 0.832892000675201

00:12:54.770 --> 00:12:56.905 From the global can database

NOTE Confidence: 0.832892000675201

00:12:56.905 --> 00:12:59.040 Arquivo candy today's 2018 and

NOTE Confidence: 0.821624398231506

00:12:59.119 --> 00:13:02.359 so you can see in separate sub Saharan

NOTE Confidence: 0.821624398231506

00:13:02.359 --> 00:13:04.553 African countries and other low

NOTE Confidence: 0.821624398231506

00:13:04.553 --> 00:13:06.723 income countries around the world.

NOTE Confidence: 0.821624398231506

00:13:06.730 --> 00:13:10.002 The rates are quite high so is in

NOTE Confidence: 0.821624398231506

00:13:10.002 --> 00:13:12.867 this context actually that some of

NOTE Confidence: 0.821624398231506

00:13:12.867 --> 00:13:16.257 you may know the Director general of

NOTE Confidence: 0.821624398231506

00:13:16.257 --> 00:13:19.169 The Who has declared a plan to for

NOTE Confidence: 0.821624398231506

00:13:19.169 --> 00:13:21.328 the elimination of cervical cancer,

NOTE Confidence: 0.821624398231506

00:13:21.328 --> 00:13:23.563 the World Health Assembly in

NOTE Confidence: 0.821624398231506

00:13:23.563 --> 00:13:25.149 August approved a plan.

NOTE Confidence: 0.821624398231506

00:13:25.150 --> 00:13:27.670 For the elimination of cervical

NOTE Confidence: 0.821624398231506

00:13:27.670 --> 00:13:30.190 cancer and actually just before

NOTE Confidence: 0.821624398231506

00:13:30.270 --> 00:13:32.910 this call is on a call with PAJA,

NOTE Confidence: 0.821624398231506

00:13:32.910 --> 00:13:34.975 the Pan American Health Organization

NOTE Confidence: 0.821624398231506

00:13:34.975 --> 00:13:37.556 to layout the plan for elimination
NOTE Confidence: 0.821624398231506

00:13:37.556 --> 00:13:40.202 of cervical cancer in in the
NOTE Confidence: 0.821624398231506

00:13:40.202 --> 00:13:41.525 Latin American region.
NOTE Confidence: 0.821624398231506

00:13:41.530 --> 00:13:44.761 Now this is going to be a long of
NOTE Confidence: 0.821624398231506

00:13:44.761 --> 00:13:47.677 obviously along time to achieve when
NOTE Confidence: 0.821624398231506

00:13:47.677 --> 00:13:50.142 you have a vaccination campaign,
NOTE Confidence: 0.821624398231506

00:13:50.150 --> 00:13:52.742 but then acted area of focus
NOTE Confidence: 0.821624398231506

00:13:52.742 --> 00:13:55.360 for The Who and for the.
NOTE Confidence: 0.821624398231506

00:13:55.360 --> 00:13:58.490 Global community Stepping back again,
NOTE Confidence: 0.821624398231506

00:13:58.490 --> 00:14:00.955 so clearly outcomes in cancer
NOTE Confidence: 0.821624398231506

00:14:00.955 --> 00:14:03.420 is highly correlated to income.
NOTE Confidence: 0.821624398231506

00:14:03.420 --> 00:14:06.288 The bottom axis there is the
NOTE Confidence: 0.821624398231506

00:14:06.288 --> 00:14:08.793 segments of countries that the
NOTE Confidence: 0.821624398231506

00:14:08.793 --> 00:14:10.809 low income countries low,
NOTE Confidence: 0.821624398231506

00:14:10.810 --> 00:14:11.291 lower,
NOTE Confidence: 0.821624398231506

00:14:11.291 --> 00:14:13.696 middle income countries and so

NOTE Confidence: 0.821624398231506

00:14:13.696 --> 00:14:17.698 forth and on the left axis the

NOTE Confidence: 0.821624398231506

00:14:17.698 --> 00:14:20.173 ratio of mortality to incidence,

NOTE Confidence: 0.821624398231506

00:14:20.180 --> 00:14:22.690 and so clearly more resources

NOTE Confidence: 0.821624398231506

00:14:22.690 --> 00:14:24.698 in different countries across

NOTE Confidence: 0.821624398231506

00:14:24.698 --> 00:14:27.100 a range of cancer types.

NOTE Confidence: 0.821624398231506

00:14:27.100 --> 00:14:29.428 Affects the outcomes in those countries.

NOTE Confidence: 0.821624398231506

00:14:29.430 --> 00:14:31.770 So when we talk about resources,

NOTE Confidence: 0.821624398231506

00:14:31.770 --> 00:14:34.140 let's drill into a little more

NOTE Confidence: 0.821624398231506

00:14:34.140 --> 00:14:36.439 granular detail and this you know,

NOTE Confidence: 0.821624398231506

00:14:36.440 --> 00:14:38.528 we often talk about.

NOTE Confidence: 0.821624398231506

00:14:38.528 --> 00:14:41.138 Access to the highest price

NOTE Confidence: 0.821624398231506

00:14:41.138 --> 00:14:43.598 drugs in other countries.

NOTE Confidence: 0.821624398231506

00:14:43.600 --> 00:14:46.430 But really these are fundamental

NOTE Confidence: 0.821624398231506

00:14:46.430 --> 00:14:48.694 aspects of cancer care.

NOTE Confidence: 0.821624398231506

00:14:48.700 --> 00:14:51.445 Really that the building blocks

NOTE Confidence: 0.821624398231506

00:14:51.445 --> 00:14:54.874 that are that are limited in
NOTE Confidence: 0.821624398231506

00:14:54.874 --> 00:14:57.186 the lower income countries,
NOTE Confidence: 0.821624398231506

00:14:57.190 --> 00:15:00.418 so surgical facilities access to key
NOTE Confidence: 0.821624398231506

00:15:00.418 --> 00:15:04.549 drugs such as essential drugs like tamoxifen,
NOTE Confidence: 0.821624398231506

00:15:04.550 --> 00:15:06.818 access to palliative care,
NOTE Confidence: 0.821624398231506

00:15:06.818 --> 00:15:08.519 or a morpheme.
NOTE Confidence: 0.821624398231506

00:15:08.520 --> 00:15:11.888 And the the percentage of out of pocket
NOTE Confidence: 0.821624398231506

00:15:11.888 --> 00:15:14.687 health expenditure that the individual faces.
NOTE Confidence: 0.821624398231506

00:15:14.690 --> 00:15:16.454 I actually think so.
NOTE Confidence: 0.821624398231506

00:15:16.454 --> 00:15:19.046 That's about 50% out of pocket
NOTE Confidence: 0.821624398231506

00:15:19.046 --> 00:15:21.578 in low income countries and low
NOTE Confidence: 0.821624398231506

00:15:21.578 --> 00:15:24.070 lower middle income countries.
NOTE Confidence: 0.821624398231506

00:15:24.070 --> 00:15:25.270 I might actually.
NOTE Confidence: 0.821624398231506

00:15:25.270 --> 00:15:29.349 My sense is out of data to back this up.
NOTE Confidence: 0.821624398231506

00:15:29.350 --> 00:15:31.894 My sense is that actually understates
NOTE Confidence: 0.821624398231506

00:15:31.894 --> 00:15:35.186 that when you factor in the cost of

NOTE Confidence: 0.821624398231506
00:15:35.186 --> 00:15:37.466 transportation and get to a facility,
NOTE Confidence: 0.821624398231506
00:15:37.470 --> 00:15:39.900 the expense in many of these
NOTE Confidence: 0.821624398231506
00:15:39.900 --> 00:15:41.992 countries individuals are going to
NOTE Confidence: 0.821624398231506
00:15:41.992 --> 00:15:44.368 traditional healers as a first course.
NOTE Confidence: 0.821624398231506
00:15:44.370 --> 00:15:45.990 So they're spending money
NOTE Confidence: 0.821624398231506
00:15:45.990 --> 00:15:47.205 on other approaches,
NOTE Confidence: 0.821624398231506
00:15:47.210 --> 00:15:49.405 and these expenses are obviously
NOTE Confidence: 0.821624398231506
00:15:49.405 --> 00:15:51.161 catastrophic for any individual
NOTE Confidence: 0.821624398231506
00:15:51.161 --> 00:15:52.969 in these countries seeking
NOTE Confidence: 0.821624398231506
00:15:52.969 --> 00:15:55.139 any kind of cancer treatment.
NOTE Confidence: 0.821624398231506
00:15:55.140 --> 00:15:57.288 Not on this slide,
NOTE Confidence: 0.821624398231506
00:15:57.288 --> 00:15:59.973 but equally if not more
NOTE Confidence: 0.821624398231506
00:15:59.973 --> 00:16:01.990 critical is pathology.
NOTE Confidence: 0.821624398231506
00:16:01.990 --> 00:16:04.274 Asity access to pathology
NOTE Confidence: 0.821624398231506
00:16:04.274 --> 00:16:05.987 and laboratory diagnostics,
NOTE Confidence: 0.821624398231506

00:16:05.990 --> 00:16:07.132 which is,
NOTE Confidence: 0.821624398231506

00:16:07.132 --> 00:16:09.416 as you all know,
NOTE Confidence: 0.821624398231506

00:16:09.420 --> 00:16:13.508 is the key part of the cancer
NOTE Confidence: 0.821624398231506

00:16:13.508 --> 00:16:17.428 care process and a key factor in.
NOTE Confidence: 0.821624398231506

00:16:17.430 --> 00:16:19.908 Now comes if you can diagnose
NOTE Confidence: 0.821624398231506

00:16:19.908 --> 00:16:23.158 it earlier on and get a correct
NOTE Confidence: 0.821624398231506

00:16:23.158 --> 00:16:25.166 diagnosis at the outcomes.
NOTE Confidence: 0.821624398231506

00:16:25.170 --> 00:16:26.036 Of course,
NOTE Confidence: 0.821624398231506

00:16:26.036 --> 00:16:28.201 are much better access radiotherapy
NOTE Confidence: 0.821624398231506

00:16:28.201 --> 00:16:31.467 and other issues that is analysis by
NOTE Confidence: 0.821624398231506

00:16:31.467 --> 00:16:33.359 International Atomic Energy Agency,
NOTE Confidence: 0.821624398231506

00:16:33.360 --> 00:16:35.652 and you can see again countries
NOTE Confidence: 0.821624398231506

00:16:35.652 --> 00:16:38.902 in Sub Saharan Africa that have no
NOTE Confidence: 0.821624398231506

00:16:38.902 --> 00:16:41.090 radiotherapy machines access whatsoever.
NOTE Confidence: 0.821624398231506

00:16:41.090 --> 00:16:44.275 This data is a little bit dated,
NOTE Confidence: 0.821624398231506

00:16:44.280 --> 00:16:46.112 so this is 2010,

NOTE Confidence: 0.821624398231506
00:16:46.112 --> 00:16:47.486 but really the.
NOTE Confidence: 0.821624398231506
00:16:47.490 --> 00:16:49.970 The picture has not changed
NOTE Confidence: 0.821624398231506
00:16:49.970 --> 00:16:51.458 dramatically since then.
NOTE Confidence: 0.821624398231506
00:16:51.460 --> 00:16:53.620 Gives you a sense again
NOTE Confidence: 0.821624398231506
00:16:53.620 --> 00:16:55.780 of where some of those
NOTE Confidence: 0.82923299074173
00:16:55.878 --> 00:16:58.134 disparities are and in
NOTE Confidence: 0.82923299074173
00:16:58.134 --> 00:17:00.390 terms of human resources.
NOTE Confidence: 0.82923299074173
00:17:00.390 --> 00:17:03.360 So there isn't existing a comprehensive,
NOTE Confidence: 0.82923299074173
00:17:03.360 --> 00:17:04.848 quantifiable, comprehensive analysis
NOTE Confidence: 0.82923299074173
00:17:04.848 --> 00:17:07.328 of the global oncology workforce.
NOTE Confidence: 0.82923299074173
00:17:07.330 --> 00:17:10.306 This is one of the better
NOTE Confidence: 0.82923299074173
00:17:10.306 --> 00:17:12.290 studies that I've seen.
NOTE Confidence: 0.82923299074173
00:17:12.290 --> 00:17:15.260 This was published in Ask's Jayceeoh
NOTE Confidence: 0.82923299074173
00:17:15.260 --> 00:17:18.274 Global Oncology Journal, so this is.
NOTE Confidence: 0.82923299074173
00:17:18.274 --> 00:17:19.798 Not the JC.
NOTE Confidence: 0.82923299074173

00:17:19.800 --> 00:17:23.083 Oh, but the sister Journal to the
NOTE Confidence: 0.82923299074173

00:17:23.083 --> 00:17:26.449 JCO is focused on global oncology.
NOTE Confidence: 0.82923299074173

00:17:26.450 --> 00:17:29.030 So Doctor Raju and colleagues.
NOTE Confidence: 0.82923299074173

00:17:29.030 --> 00:17:31.538 Looked at data around the world,
NOTE Confidence: 0.82923299074173

00:17:31.540 --> 00:17:32.794 different data sources,
NOTE Confidence: 0.82923299074173

00:17:32.794 --> 00:17:35.720 bearing definitions of what an oncologist is.
NOTE Confidence: 0.82923299074173

00:17:35.720 --> 00:17:38.816 So again, you need to sort of take
NOTE Confidence: 0.82923299074173

00:17:38.816 --> 00:17:41.567 the findings with with some caution,
NOTE Confidence: 0.82923299074173

00:17:41.570 --> 00:17:44.658 but they arrive at the ratio of new
NOTE Confidence: 0.82923299074173

00:17:44.658 --> 00:17:47.093 cancer cases cases per oncologist and
NOTE Confidence: 0.82923299074173

00:17:47.093 --> 00:17:50.350 just gives you sort of a benchmark.
NOTE Confidence: 0.82923299074173

00:17:50.350 --> 00:17:53.269 A sense of what the ratios are.
NOTE Confidence: 0.82923299074173

00:17:53.270 --> 00:17:54.524 So for example,
NOTE Confidence: 0.82923299074173

00:17:54.524 --> 00:17:56.196 in the United States,
NOTE Confidence: 0.82923299074173

00:17:56.200 --> 00:17:58.732 133 new new case of cancer
NOTE Confidence: 0.82923299074173

00:17:58.732 --> 00:17:59.998 per oncologists Ethiopia.

NOTE Confidence: 0.82923299074173

00:18:00.000 --> 00:18:03.126 10,000 new cases of cancer for

NOTE Confidence: 0.82923299074173

00:18:03.126 --> 00:18:06.858 oncologists and as some of you may know,

NOTE Confidence: 0.82923299074173

00:18:06.860 --> 00:18:09.665 Ethiopian government has actually launched

NOTE Confidence: 0.82923299074173

00:18:09.665 --> 00:18:12.470 a multiyear program to significantly

NOTE Confidence: 0.82923299074173

00:18:12.547 --> 00:18:15.229 expand its oncology workforce and to

NOTE Confidence: 0.82923299074173

00:18:15.229 --> 00:18:17.532 extend services beyond the capital

NOTE Confidence: 0.82923299074173

00:18:17.532 --> 00:18:20.577 city to other centers across the country.

NOTE Confidence: 0.82923299074173

00:18:20.580 --> 00:18:24.213 But it gives you a sense of

NOTE Confidence: 0.82923299074173

00:18:24.213 --> 00:18:27.070 the magnitude of the issue.

NOTE Confidence: 0.82923299074173

00:18:27.070 --> 00:18:31.183 So with that as the kind of global picture,

NOTE Confidence: 0.82923299074173

00:18:31.190 --> 00:18:34.942 I'll then now sort of transition to

NOTE Confidence: 0.82923299074173

00:18:34.942 --> 00:18:39.019 what task is doing in this regard.

NOTE Confidence: 0.82923299074173

00:18:39.020 --> 00:18:42.695 So just a primer if you will.

NOTE Confidence: 0.82923299074173

00:18:42.700 --> 00:18:46.095 On Asko, it is more than just

NOTE Confidence: 0.82923299074173

00:18:46.095 --> 00:18:49.519 four days in Chicago in June.

NOTE Confidence: 0.82923299074173

00:18:49.520 --> 00:18:50.570 It's it's.
NOTE Confidence: 0.82923299074173

00:18:50.570 --> 00:18:53.720 It's actually quite vibrant oncology society,
NOTE Confidence: 0.82923299074173

00:18:53.720 --> 00:18:57.176 so our main programs annual meeting
NOTE Confidence: 0.82923299074173

00:18:57.176 --> 00:19:00.027 we have thematic symposia that
NOTE Confidence: 0.82923299074173

00:19:00.027 --> 00:19:03.163 some of you may be familiar with.
NOTE Confidence: 0.82923299074173

00:19:03.170 --> 00:19:04.220 Our journals,
NOTE Confidence: 0.82923299074173

00:19:04.220 --> 00:19:07.370 cancer.net is our patient information portal.
NOTE Confidence: 0.82923299074173

00:19:07.370 --> 00:19:10.050 Conquer cancer is our foundation.
NOTE Confidence: 0.82923299074173

00:19:10.050 --> 00:19:12.598 And cancer link is and I hope
NOTE Confidence: 0.82923299074173

00:19:12.598 --> 00:19:14.570 there aren't any questions.
NOTE Confidence: 0.82923299074173

00:19:14.570 --> 00:19:17.570 I cancelled because of rapidly get on my
NOTE Confidence: 0.82923299074173

00:19:17.570 --> 00:19:20.867 death but it is our big data platform
NOTE Confidence: 0.82923299074173

00:19:20.867 --> 00:19:23.034 that is drawing information from
NOTE Confidence: 0.82923299074173

00:19:23.034 --> 00:19:25.668 HR's currently in the United States.
NOTE Confidence: 0.82923299074173

00:19:25.670 --> 00:19:27.314 Analyze overall a patient
NOTE Confidence: 0.82923299074173

00:19:27.314 --> 00:19:28.958 Terra trends and insights.

NOTE Confidence: 0.82923299074173

00:19:28.960 --> 00:19:31.830 So this is the ASKO strategic plan.

NOTE Confidence: 0.82923299074173

00:19:31.830 --> 00:19:35.529 I'm not going to go through it in detail,

NOTE Confidence: 0.82923299074173

00:19:35.530 --> 00:19:37.996 but you'll see the four goals.

NOTE Confidence: 0.82923299074173

00:19:38.000 --> 00:19:40.090 Kind of running through the.

NOTE Confidence: 0.82923299074173

00:19:40.090 --> 00:19:43.194 The middle of the slide there and on

NOTE Confidence: 0.82923299074173

00:19:43.194 --> 00:19:46.247 the right hand side you'll see making

NOTE Confidence: 0.82923299074173

00:19:46.247 --> 00:19:49.290 a global impact is front and well,

NOTE Confidence: 0.82923299074173

00:19:49.290 --> 00:19:50.439 not friends center,

NOTE Confidence: 0.82923299074173

00:19:50.439 --> 00:19:52.737 but a main component of the

NOTE Confidence: 0.82923299074173

00:19:52.737 --> 00:19:54.299 ASCO strategic plan.

NOTE Confidence: 0.82923299074173

00:19:54.300 --> 00:19:57.247 I just think that this really demonstrates

NOTE Confidence: 0.82923299074173

00:19:57.247 --> 00:19:59.320 the seriousness that ASCO takes.

NOTE Confidence: 0.82923299074173

00:19:59.320 --> 00:20:01.712 With respect to it,

NOTE Confidence: 0.82923299074173

00:20:01.712 --> 00:20:02.908 it's global.

NOTE Confidence: 0.82923299074173

00:20:02.910 --> 00:20:05.952 Sort of profile its responsibility to

NOTE Confidence: 0.82923299074173

00:20:05.952 --> 00:20:09.698 its members and its constituents and its
NOTE Confidence: 0.82923299074173

00:20:09.698 --> 00:20:13.492 commitment to to having a global impact.
NOTE Confidence: 0.82923299074173

00:20:13.500 --> 00:20:16.326 Because Asko is a global organization,
NOTE Confidence: 0.82923299074173

00:20:16.330 --> 00:20:19.150 so half of our meeting attendance
NOTE Confidence: 0.82923299074173

00:20:19.150 --> 00:20:20.090 is international.
NOTE Confidence: 0.82923299074173

00:20:20.090 --> 00:20:22.445 Almost exactly 1/3 of our
NOTE Confidence: 0.82923299074173

00:20:22.445 --> 00:20:23.858 membership is international.
NOTE Confidence: 0.82923299074173

00:20:23.860 --> 00:20:24.802 Our journals,
NOTE Confidence: 0.82923299074173

00:20:24.802 --> 00:20:26.686 the Journal Clinical Oncology,
NOTE Confidence: 0.82923299074173

00:20:26.690 --> 00:20:28.590 and, as I mentioned,
NOTE Confidence: 0.82923299074173

00:20:28.590 --> 00:20:31.440 that JC Oaklawn Cology are red
NOTE Confidence: 0.82923299074173

00:20:31.542 --> 00:20:34.728 around the world and in effect
NOTE Confidence: 0.82923299074173

00:20:34.728 --> 00:20:36.852 practice around the world.
NOTE Confidence: 0.82923299074173

00:20:36.860 --> 00:20:40.066 So with that kind of global commitment,
NOTE Confidence: 0.82923299074173

00:20:40.070 --> 00:20:41.016 an profile.
NOTE Confidence: 0.82923299074173

00:20:41.016 --> 00:20:43.381 What is Asco's international strategy

NOTE Confidence: 0.82923299074173

00:20:43.381 --> 00:20:46.039 to address some of these issues?

NOTE Confidence: 0.82923299074173

00:20:46.040 --> 00:20:46.498 Well,

NOTE Confidence: 0.82923299074173

00:20:46.498 --> 00:20:47.872 there's three parts.

NOTE Confidence: 0.82923299074173

00:20:47.872 --> 00:20:49.246 Is the strategy,

NOTE Confidence: 0.82923299074173

00:20:49.250 --> 00:20:51.550 and I'll go through it.

NOTE Confidence: 0.863199234008789

00:20:51.550 --> 00:20:54.436 Go through it briefly and happy

NOTE Confidence: 0.863199234008789

00:20:54.436 --> 00:20:57.520 to talk more about in the Q&A.

NOTE Confidence: 0.863199234008789

00:20:57.520 --> 00:20:59.815 But there are three components

NOTE Confidence: 0.863199234008789

00:20:59.815 --> 00:21:02.110 that intersect with each other,

NOTE Confidence: 0.863199234008789

00:21:02.110 --> 00:21:04.400 so first is leadership development.

NOTE Confidence: 0.863199234008789

00:21:04.400 --> 00:21:06.720 As a member Society of

NOTE Confidence: 0.863199234008789

00:21:06.720 --> 00:21:08.576 course we're focused on.

NOTE Confidence: 0.863199234008789

00:21:08.580 --> 00:21:11.052 Engaging our members and it's really

NOTE Confidence: 0.863199234008789

00:21:11.052 --> 00:21:13.609 a global health truism if you will,

NOTE Confidence: 0.863199234008789

00:21:13.610 --> 00:21:15.728 that if you're going to have

NOTE Confidence: 0.863199234008789

00:21:15.728 --> 00:21:17.870 an impact and change practice,
NOTE Confidence: 0.863199234008789

00:21:17.870 --> 00:21:20.390 you need to engage agents of change
NOTE Confidence: 0.863199234008789

00:21:20.390 --> 00:21:22.769 change agents who can incorporate and
NOTE Confidence: 0.863199234008789

00:21:22.769 --> 00:21:25.217 lead those those programs for you.
NOTE Confidence: 0.863199234008789

00:21:25.220 --> 00:21:28.316 So the leadership development is a key piece.
NOTE Confidence: 0.863199234008789

00:21:28.320 --> 00:21:30.875 Then we work with those leaders to
NOTE Confidence: 0.863199234008789

00:21:30.875 --> 00:21:33.738 implement access to quality of care programs,
NOTE Confidence: 0.863199234008789

00:21:33.740 --> 00:21:36.524 which I'll get into and this and then
NOTE Confidence: 0.863199234008789

00:21:36.524 --> 00:21:39.169 underlying all this activity is researched.
NOTE Confidence: 0.863199234008789

00:21:39.170 --> 00:21:41.666 So we have a sense today of how
NOTE Confidence: 0.863199234008789

00:21:41.666 --> 00:21:44.270 we can improve access to care,
NOTE Confidence: 0.863199234008789

00:21:44.270 --> 00:21:46.517 but we always need to be searching
NOTE Confidence: 0.863199234008789

00:21:46.517 --> 00:21:48.322 for those better solutions and
NOTE Confidence: 0.863199234008789

00:21:48.322 --> 00:21:50.272 understand the evidence base and
NOTE Confidence: 0.863199234008789

00:21:50.272 --> 00:21:52.638 going where the evidence takes us.
NOTE Confidence: 0.863199234008789

00:21:52.640 --> 00:21:53.860 And the only way,

NOTE Confidence: 0.863199234008789

00:21:53.860 --> 00:21:56.261 as you all know to do that

NOTE Confidence: 0.863199234008789

00:21:56.261 --> 00:21:57.728 is through research.

NOTE Confidence: 0.863199234008789

00:21:57.730 --> 00:21:59.078 So just really briefly,

NOTE Confidence: 0.863199234008789

00:21:59.078 --> 00:22:01.740 I'll go through some of these programs.

NOTE Confidence: 0.863199234008789

00:22:01.740 --> 00:22:04.286 So in terms of leadership, we engage

NOTE Confidence: 0.863199234008789

00:22:04.286 --> 00:22:06.464 with oncology leaders around the world.

NOTE Confidence: 0.863199234008789

00:22:06.470 --> 00:22:08.290 Through we have our International

NOTE Confidence: 0.863199234008789

00:22:08.290 --> 00:22:09.018 Affairs Committee,

NOTE Confidence: 0.863199234008789

00:22:09.020 --> 00:22:10.930 which is a global body.

NOTE Confidence: 0.863199234008789

00:22:10.930 --> 00:22:11.670 And then,

NOTE Confidence: 0.863199234008789

00:22:11.670 --> 00:22:13.150 more recently we've started

NOTE Confidence: 0.863199234008789

00:22:13.150 --> 00:22:14.630 creating a regional councils,

NOTE Confidence: 0.863199234008789

00:22:14.630 --> 00:22:17.038 so our first one here is the

NOTE Confidence: 0.863199234008789

00:22:17.038 --> 00:22:18.700 Asia Pacific Regional Council.

NOTE Confidence: 0.863199234008789

00:22:18.700 --> 00:22:20.716 In these councils are members who

NOTE Confidence: 0.863199234008789

00:22:20.716 --> 00:22:23.678 will help ask a really deep in our
NOTE Confidence: 0.863199234008789

00:22:23.678 --> 00:22:26.470 engagement in specific regions of the world,
NOTE Confidence: 0.863199234008789

00:22:26.470 --> 00:22:28.700 understand what are the challenges
NOTE Confidence: 0.863199234008789

00:22:28.700 --> 00:22:31.355 with what are the opportunities in
NOTE Confidence: 0.863199234008789

00:22:31.355 --> 00:22:33.812 ways that we can engage the oncology
NOTE Confidence: 0.863199234008789

00:22:33.812 --> 00:22:36.079 community in each of these regions.
NOTE Confidence: 0.863199234008789

00:22:36.080 --> 00:22:38.250 So those are current leaders,
NOTE Confidence: 0.863199234008789

00:22:38.250 --> 00:22:41.450 but then we also have to develop the
NOTE Confidence: 0.863199234008789

00:22:41.450 --> 00:22:43.869 next generation of oncology leaders.
NOTE Confidence: 0.863199234008789

00:22:43.870 --> 00:22:46.468 Some of you may be familiar
NOTE Confidence: 0.863199234008789

00:22:46.468 --> 00:22:48.200 with our idea program.
NOTE Confidence: 0.863199234008789

00:22:48.200 --> 00:22:50.780 I know many Yale faculty have
NOTE Confidence: 0.863199234008789

00:22:50.780 --> 00:22:52.970 been idea mentors pictured here.
NOTE Confidence: 0.863199234008789

00:22:52.970 --> 00:22:54.586 As you can see,
NOTE Confidence: 0.863199234008789

00:22:54.586 --> 00:22:58.015 I'm yells own doctor in these type car
NOTE Confidence: 0.863199234008789

00:22:58.015 --> 00:23:01.671 and her mentee mercy CJ from from Nigeria.

NOTE Confidence: 0.863199234008789
00:23:01.680 --> 00:23:04.669 We also have the virtual mentoring program,
NOTE Confidence: 0.863199234008789
00:23:04.670 --> 00:23:06.800 so these programs identify young
NOTE Confidence: 0.863199234008789
00:23:06.800 --> 00:23:08.504 emerging on koleji leaders,
NOTE Confidence: 0.863199234008789
00:23:08.510 --> 00:23:11.499 primarily in low and middle income countries.
NOTE Confidence: 0.863199234008789
00:23:11.500 --> 00:23:12.354 Mentor them,
NOTE Confidence: 0.863199234008789
00:23:12.354 --> 00:23:14.916 bring them into the ASCO fold,
NOTE Confidence: 0.863199234008789
00:23:14.920 --> 00:23:15.772 and then,
NOTE Confidence: 0.863199234008789
00:23:15.772 --> 00:23:18.328 as I'll mention more later on,
NOTE Confidence: 0.863199234008789
00:23:18.330 --> 00:23:20.754 we then work with these leaders
NOTE Confidence: 0.863199234008789
00:23:20.754 --> 00:23:23.321 and engage the manasco programs and
NOTE Confidence: 0.863199234008789
00:23:23.321 --> 00:23:25.925 help us to do implement programs
NOTE Confidence: 0.863199234008789
00:23:25.925 --> 00:23:28.148 in countries around the world.
NOTE Confidence: 0.863199234008789
00:23:28.150 --> 00:23:30.315 We also have a leadership
NOTE Confidence: 0.863199234008789
00:23:30.315 --> 00:23:32.047 development program which also.
NOTE Confidence: 0.863199234008789
00:23:32.050 --> 00:23:35.162 And this was one of the first participants
NOTE Confidence: 0.863199234008789

00:23:35.162 --> 00:23:37.928 in and actually how a nice and.
NOTE Confidence: 0.863199234008789

00:23:37.930 --> 00:23:41.186 I first met each other and we have
NOTE Confidence: 0.863199234008789

00:23:41.186 --> 00:23:43.100 international participation in this
NOTE Confidence: 0.863199234008789

00:23:43.100 --> 00:23:44.639 leadership development program.
NOTE Confidence: 0.863199234008789

00:23:44.640 --> 00:23:47.146 As we work them with these leaders
NOTE Confidence: 0.863199234008789

00:23:47.146 --> 00:23:49.708 to improve the quality of care
NOTE Confidence: 0.863199234008789

00:23:49.708 --> 00:23:51.588 delivered in their countries,
NOTE Confidence: 0.863199234008789

00:23:51.590 --> 00:23:54.453 we do this through a number of
NOTE Confidence: 0.863199234008789

00:23:54.453 --> 00:23:55.680 modalities versus training.
NOTE Confidence: 0.863199234008789

00:23:55.680 --> 00:23:58.060 So we do in person training when
NOTE Confidence: 0.863199234008789

00:23:58.060 --> 00:24:00.676 back when we could do that and
NOTE Confidence: 0.863199234008789

00:24:00.676 --> 00:24:03.519 hopefully will be able to resume that
NOTE Confidence: 0.863199234008789

00:24:03.519 --> 00:24:05.487 through ASKO international courses
NOTE Confidence: 0.863199234008789

00:24:05.487 --> 00:24:08.366 or courses are focused on palate
NOTE Confidence: 0.863199234008789

00:24:08.366 --> 00:24:10.030 if care multidisciplinary care.
NOTE Confidence: 0.863199234008789

00:24:10.030 --> 00:24:11.855 Cancer prevention and in clinical

NOTE Confidence: 0.863199234008789
00:24:11.855 --> 00:24:12.950 trials I'm here.
NOTE Confidence: 0.863199234008789
00:24:12.950 --> 00:24:14.995 You have picture another picture
NOTE Confidence: 0.863199234008789
00:24:14.995 --> 00:24:17.040 of the knees that promises
NOTE Confidence: 0.80700671672821
00:24:17.115 --> 00:24:19.348 my last picture of a nice but
NOTE Confidence: 0.80700671672821
00:24:19.348 --> 00:24:21.350 doing a training course for us.
NOTE Confidence: 0.80700671672821
00:24:21.350 --> 00:24:23.700 I believe in the Philippines.
NOTE Confidence: 0.80700671672821
00:24:23.700 --> 00:24:27.466 And then online training through our E
NOTE Confidence: 0.80700671672821
00:24:27.466 --> 00:24:30.520 Learning platform and another online.
NOTE Confidence: 0.80700671672821
00:24:30.520 --> 00:24:32.710 Mechanisms that we have that I'll
NOTE Confidence: 0.80700671672821
00:24:32.710 --> 00:24:34.905 get into now, ask, of course,
NOTE Confidence: 0.80700671672821
00:24:34.905 --> 00:24:36.730 has guidelines that we have.
NOTE Confidence: 0.80700671672821
00:24:36.730 --> 00:24:38.390 The ASCO standard ASCO guidelines
NOTE Confidence: 0.80700671672821
00:24:38.390 --> 00:24:40.497 and then we also have resource
NOTE Confidence: 0.80700671672821
00:24:40.497 --> 00:24:42.427 stratified guidelines so busy you
NOTE Confidence: 0.80700671672821
00:24:42.427 --> 00:24:44.759 are not familiar with the concept.
NOTE Confidence: 0.80700671672821

00:24:44.760 --> 00:24:47.140 Basically, it goes back to the evidence
NOTE Confidence: 0.80700671672821

00:24:47.140 --> 00:24:49.765 base and says well if a certain
NOTE Confidence: 0.80700671672821

00:24:49.765 --> 00:24:51.690 treatment modality is not available,
NOTE Confidence: 0.80700671672821

00:24:51.690 --> 00:24:53.138 what is the evidence?
NOTE Confidence: 0.80700671672821

00:24:53.138 --> 00:24:55.310 Say that is the next best
NOTE Confidence: 0.80700671672821

00:24:55.395 --> 00:24:57.170 and then the next best,
NOTE Confidence: 0.80700671672821

00:24:57.170 --> 00:24:59.788 and so it enables you to have
NOTE Confidence: 0.80700671672821

00:24:59.788 --> 00:25:01.629 the best standard of care.
NOTE Confidence: 0.80700671672821

00:25:01.630 --> 00:25:03.618 In different practice settings,
NOTE Confidence: 0.80700671672821

00:25:03.618 --> 00:25:06.600 still based on the available admins,
NOTE Confidence: 0.80700671672821

00:25:06.600 --> 00:25:08.588 so we're incorporating these
NOTE Confidence: 0.80700671672821

00:25:08.588 --> 00:25:10.576 guidelines into our training.
NOTE Confidence: 0.80700671672821

00:25:10.580 --> 00:25:12.568 We're also using increasingly
NOTE Confidence: 0.80700671672821

00:25:12.568 --> 00:25:14.059 internationally quality measures.
NOTE Confidence: 0.80700671672821

00:25:14.060 --> 00:25:17.042 Some of you may be familiar
NOTE Confidence: 0.80700671672821

00:25:17.042 --> 00:25:19.030 with Askas kopi program,

NOTE Confidence: 0.80700671672821
00:25:19.030 --> 00:25:21.510 the quality Oncology Practice initiative.
NOTE Confidence: 0.80700671672821
00:25:21.510 --> 00:25:23.990 This takes data from deidentified
NOTE Confidence: 0.80700671672821
00:25:23.990 --> 00:25:25.974 anonymized data from charts,
NOTE Confidence: 0.80700671672821
00:25:25.980 --> 00:25:28.580 and compares it against established
NOTE Confidence: 0.80700671672821
00:25:28.580 --> 00:25:30.660 evidence based quality measures
NOTE Confidence: 0.80700671672821
00:25:30.660 --> 00:25:32.947 and produces a report card.
NOTE Confidence: 0.80700671672821
00:25:32.950 --> 00:25:36.182 Back to the practice on how they're doing
NOTE Confidence: 0.80700671672821
00:25:36.182 --> 00:25:39.176 on their quality and more and more.
NOTE Confidence: 0.80700671672821
00:25:39.180 --> 00:25:40.812 We're doing this internationally
NOTE Confidence: 0.80700671672821
00:25:40.812 --> 00:25:42.852 to really assess the quality
NOTE Confidence: 0.80700671672821
00:25:42.852 --> 00:25:44.990 of care and health practices,
NOTE Confidence: 0.80700671672821
00:25:44.990 --> 00:25:47.474 improve the quality of care that's
NOTE Confidence: 0.80700671672821
00:25:47.474 --> 00:25:48.716 being delivered internationally,
NOTE Confidence: 0.80700671672821
00:25:48.720 --> 00:25:50.380 and then finally sites.
NOTE Confidence: 0.80700671672821
00:25:50.380 --> 00:25:51.210 So increasingly,
NOTE Confidence: 0.80700671672821

00:25:51.210 --> 00:25:53.484 we are performing these programs at
NOTE Confidence: 0.80700671672821

00:25:53.484 --> 00:25:56.424 specific sites for ASCO has a multiyear
NOTE Confidence: 0.80700671672821

00:25:56.424 --> 00:25:58.674 sort of commitment winning relationship.
NOTE Confidence: 0.80700671672821

00:25:58.680 --> 00:26:00.036 If you will,
NOTE Confidence: 0.80700671672821

00:26:00.036 --> 00:26:01.844 with hospitals through international
NOTE Confidence: 0.80700671672821

00:26:01.844 --> 00:26:04.560 cancer core programs that were active in.
NOTE Confidence: 0.80700671672821

00:26:04.560 --> 00:26:07.820 Nepal and Vietnam and Honduras.
NOTE Confidence: 0.80700671672821

00:26:07.820 --> 00:26:09.230 Bouton Uganda.
NOTE Confidence: 0.80700671672821

00:26:09.230 --> 00:26:12.755 Working with specific hospitals to
NOTE Confidence: 0.80700671672821

00:26:12.755 --> 00:26:16.718 enhance their cancer care capacity and
NOTE Confidence: 0.80700671672821

00:26:16.718 --> 00:26:20.210 then through a program started by.
NOTE Confidence: 0.80700671672821

00:26:20.210 --> 00:26:23.094 I see see the city cancer talent
NOTE Confidence: 0.80700671672821

00:26:23.094 --> 00:26:25.433 where we're taking that same
NOTE Confidence: 0.80700671672821

00:26:25.433 --> 00:26:27.469 kind of long-term collaborative
NOTE Confidence: 0.80700671672821

00:26:27.469 --> 00:26:30.399 model and applying it to cities.
NOTE Confidence: 0.80700671672821

00:26:30.400 --> 00:26:33.634 So we're working with colleagues in Cali,

NOTE Confidence: 0.80700671672821
00:26:33.640 --> 00:26:35.029 Colombia, Ascencion, Paraguay,
NOTE Confidence: 0.80700671672821
00:26:35.029 --> 00:26:36.418 Kumasi in Ghana,
NOTE Confidence: 0.80700671672821
00:26:36.420 --> 00:26:39.654 and Yanggang Mian Mar and we'll be
NOTE Confidence: 0.80700671672821
00:26:39.654 --> 00:26:43.356 expanding that so it kinda drill down here.
NOTE Confidence: 0.80700671672821
00:26:43.360 --> 00:26:45.650 Case example cancer course site
NOTE Confidence: 0.80700671672821
00:26:45.650 --> 00:26:48.478 in Honduras so we're working at
NOTE Confidence: 0.80700671672821
00:26:48.478 --> 00:26:50.768 the hospital Escuela in hospital,
NOTE Confidence: 0.80700671672821
00:26:50.770 --> 00:26:51.714 San Felipe.
NOTE Confidence: 0.80700671672821
00:26:51.714 --> 00:26:56.070 Is one of our first programs start in 2010.
NOTE Confidence: 0.80700671672821
00:26:56.070 --> 00:26:59.926 Now we've had about 100 volunteers to date.
NOTE Confidence: 0.80700671672821
00:26:59.930 --> 00:27:02.475 Travel to Honduras and work
NOTE Confidence: 0.80700671672821
00:27:02.475 --> 00:27:05.020 with their colleagues there on
NOTE Confidence: 0.80700671672821
00:27:05.113 --> 00:27:07.657 the focus there is on Kynoch.
NOTE Confidence: 0.80700671672821
00:27:07.660 --> 00:27:10.440 Safe administration of chemotherapy.
NOTE Confidence: 0.80700671672821
00:27:10.440 --> 00:27:13.915 Multidisciplinary care in palliative care.
NOTE Confidence: 0.80700671672821

00:27:13.920 --> 00:27:17.140 We've done this again by working with
NOTE Confidence: 0.80700671672821

00:27:17.140 --> 00:27:20.738 some pass ID recipients in Honduras,
NOTE Confidence: 0.80700671672821

00:27:20.740 --> 00:27:22.315 organizing international courses,
NOTE Confidence: 0.80700671672821

00:27:22.315 --> 00:27:24.415 doing virtual tumor boards,
NOTE Confidence: 0.80700671672821

00:27:24.420 --> 00:27:27.438 and more recently I mentioned the
NOTE Confidence: 0.80700671672821

00:27:27.438 --> 00:27:30.072 pathology challenges or recently working
NOTE Confidence: 0.80700671672821

00:27:30.072 --> 00:27:33.336 with the College of American Pathologists.
NOTE Confidence: 0.80700671672821

00:27:33.340 --> 00:27:36.046 An apologist in Honduras and as
NOTE Confidence: 0.80700671672821

00:27:36.046 --> 00:27:39.213 well as the oncology community to
NOTE Confidence: 0.80700671672821

00:27:39.213 --> 00:27:41.757 develop pathology capacity and.
NOTE Confidence: 0.80700671672821

00:27:41.760 --> 00:27:44.496 Support their efforts in that regard.
NOTE Confidence: 0.80700671672821

00:27:44.500 --> 00:27:46.850 And now they've started collecting
NOTE Confidence: 0.80700671672821

00:27:46.850 --> 00:27:49.710 data and publishing their data again,
NOTE Confidence: 0.80700671672821

00:27:49.710 --> 00:27:53.856 this is the JCO global oncology.
NOTE Confidence: 0.80700671672821

00:27:53.860 --> 00:27:56.415 And all of this as I mentioned,
NOTE Confidence: 0.80700671672821

00:27:56.420 --> 00:27:58.610 needs to be informed by research.

NOTE Confidence: 0.80700671672821
00:27:58.610 --> 00:28:00.800 So when we talk about research,
NOTE Confidence: 0.80700671672821
00:28:00.800 --> 00:28:03.720 there are some key components as you know,
NOTE Confidence: 0.80700671672821
00:28:03.720 --> 00:28:05.540 but just to highlight them,
NOTE Confidence: 0.80700671672821
00:28:05.540 --> 00:28:07.790 you need to be training investigators
NOTE Confidence: 0.80700671672821
00:28:07.790 --> 00:28:09.290 in these resource limited
NOTE Confidence: 0.860995471477509
00:28:09.359 --> 00:28:11.209 settings to conduct the research
NOTE Confidence: 0.860995471477509
00:28:11.209 --> 00:28:13.059 because the research needs to
NOTE Confidence: 0.860995471477509
00:28:13.118 --> 00:28:14.668 be done in these settings.
NOTE Confidence: 0.860995471477509
00:28:14.670 --> 00:28:16.490 That's how you're going to
NOTE Confidence: 0.860995471477509
00:28:16.490 --> 00:28:17.946 move the needle forward.
NOTE Confidence: 0.860995471477509
00:28:17.950 --> 00:28:19.960 So Askos, doing clinical trials workshops
NOTE Confidence: 0.860995471477509
00:28:19.960 --> 00:28:22.329 in low and middle income countries,
NOTE Confidence: 0.860995471477509
00:28:22.330 --> 00:28:24.598 training investigators on the best practices.
NOTE Confidence: 0.860995471477509
00:28:24.600 --> 00:28:27.505 With the conduct of research and also
NOTE Confidence: 0.860995471477509
00:28:27.505 --> 00:28:30.031 working with partner organizations in India
NOTE Confidence: 0.860995471477509

00:28:30.031 --> 00:28:33.270 and Australia to do sort of bales type,
NOTE Confidence: 0.860995471477509

00:28:33.270 --> 00:28:36.174 I believe many of you may be familiar
NOTE Confidence: 0.860995471477509

00:28:36.174 --> 00:28:39.806 with the Dalek or so this is to design
NOTE Confidence: 0.860995471477509

00:28:39.806 --> 00:28:42.359 research protocols in Cancer Research.
NOTE Confidence: 0.860995471477509

00:28:42.360 --> 00:28:45.184 Take that sort of Dale model and apply
NOTE Confidence: 0.860995471477509

00:28:45.184 --> 00:28:48.150 it to India in Asia Pacific region
NOTE Confidence: 0.860995471477509

00:28:48.150 --> 00:28:51.450 Credo in India and Accord in Australia.
NOTE Confidence: 0.860995471477509

00:28:51.450 --> 00:28:53.510 These are slightly different however,
NOTE Confidence: 0.860995471477509

00:28:53.510 --> 00:28:57.272 in the topic of the research is being done.
NOTE Confidence: 0.860995471477509

00:28:57.280 --> 00:29:02.014 Was the veil tends to be on drug development,
NOTE Confidence: 0.860995471477509

00:29:02.020 --> 00:29:03.952 credo and accord armor.
NOTE Confidence: 0.860995471477509

00:29:03.952 --> 00:29:06.850 Multi modality and it's also looking
NOTE Confidence: 0.860995471477509

00:29:06.939 --> 00:29:09.939 at research where your re purposing
NOTE Confidence: 0.860995471477509

00:29:09.939 --> 00:29:12.638 low-cost existing drugs to improve
NOTE Confidence: 0.860995471477509

00:29:12.638 --> 00:29:15.728 outcomes in resource limited settings.
NOTE Confidence: 0.860995471477509

00:29:15.730 --> 00:29:18.866 So again emphasizing the need for specific

NOTE Confidence: 0.860995471477509

00:29:18.866 --> 00:29:22.580 research for a resource limited environment,

NOTE Confidence: 0.860995471477509

00:29:22.580 --> 00:29:25.736 ASKO, through its Conquer Cancer Foundation,

NOTE Confidence: 0.860995471477509

00:29:25.740 --> 00:29:27.132 provides research funding.

NOTE Confidence: 0.860995471477509

00:29:27.132 --> 00:29:29.916 We're one of the greatest largest

NOTE Confidence: 0.860995471477509

00:29:29.916 --> 00:29:31.748 funders of Cancer Research,

NOTE Confidence: 0.860995471477509

00:29:31.750 --> 00:29:33.510 specifically for low and

NOTE Confidence: 0.860995471477509

00:29:33.510 --> 00:29:34.830 middle income countries.

NOTE Confidence: 0.860995471477509

00:29:34.830 --> 00:29:37.030 Through innovation grants or fellowships.

NOTE Confidence: 0.860995471477509

00:29:37.030 --> 00:29:39.230 And why is in global

NOTE Confidence: 0.860995471477509

00:29:39.230 --> 00:29:40.990 oncology and then finally,

NOTE Confidence: 0.860995471477509

00:29:40.990 --> 00:29:43.190 in terms of research, dissemination.

NOTE Confidence: 0.860995471477509

00:29:43.190 --> 00:29:46.406 So this is where I think things that

NOTE Confidence: 0.860995471477509

00:29:46.406 --> 00:29:49.349 separates ASKO from a typical foundation.

NOTE Confidence: 0.860995471477509

00:29:49.350 --> 00:29:51.550 Because then we're able to

NOTE Confidence: 0.860995471477509

00:29:51.550 --> 00:29:53.750 marry up that research funding.

NOTE Confidence: 0.860995471477509

00:29:53.750 --> 00:29:56.190 Those does findings with the
NOTE Confidence: 0.860995471477509

00:29:56.190 --> 00:29:58.630 channels that the global channels
NOTE Confidence: 0.860995471477509

00:29:58.713 --> 00:30:00.837 that Apsco has to get that.
NOTE Confidence: 0.860995471477509

00:30:00.840 --> 00:30:01.941 Out into practice.
NOTE Confidence: 0.860995471477509

00:30:01.941 --> 00:30:04.510 So the JCO global oncology or annual
NOTE Confidence: 0.860995471477509

00:30:04.584 --> 00:30:06.786 meeting as a global health track,
NOTE Confidence: 0.860995471477509

00:30:06.790 --> 00:30:09.028 and most recently our breakthrough meeting
NOTE Confidence: 0.860995471477509

00:30:09.028 --> 00:30:11.629 that we started in Thailand in 2019.
NOTE Confidence: 0.860995471477509

00:30:11.630 --> 00:30:14.073 So here is kind of a map
NOTE Confidence: 0.860995471477509

00:30:14.073 --> 00:30:16.089 of our activity last year,
NOTE Confidence: 0.860995471477509

00:30:16.090 --> 00:30:17.950 this year has been obviously
NOTE Confidence: 0.860995471477509

00:30:17.950 --> 00:30:19.066 affected by pandemic.
NOTE Confidence: 0.860995471477509

00:30:19.070 --> 00:30:22.038 Not get into that, but just kind of.
NOTE Confidence: 0.860995471477509

00:30:22.040 --> 00:30:25.388 I'm not going to go through all these pins,
NOTE Confidence: 0.860995471477509

00:30:25.390 --> 00:30:28.216 but just kind of gives you a sense of
NOTE Confidence: 0.860995471477509

00:30:28.216 --> 00:30:31.375 the breadth and depth of ask's activity.

NOTE Confidence: 0.860995471477509

00:30:31.380 --> 00:30:34.698 Globally just kind of pick out a

NOTE Confidence: 0.860995471477509

00:30:34.698 --> 00:30:38.522 few things so that the dark blue

NOTE Confidence: 0.860995471477509

00:30:38.522 --> 00:30:41.387 pins are the innovation grants.

NOTE Confidence: 0.860995471477509

00:30:41.390 --> 00:30:43.498 So these are investigators

NOTE Confidence: 0.860995471477509

00:30:43.498 --> 00:30:45.079 in these countries.

NOTE Confidence: 0.860995471477509

00:30:45.080 --> 00:30:47.116 Discovering novel cancer control

NOTE Confidence: 0.860995471477509

00:30:47.116 --> 00:30:49.661 solutions for a lower resource

NOTE Confidence: 0.860995471477509

00:30:49.661 --> 00:30:52.488 or lower metal resource setting.

NOTE Confidence: 0.860995471477509

00:30:52.490 --> 00:30:55.070 The the purple pens are I

NOTE Confidence: 0.860995471477509

00:30:55.070 --> 00:30:56.790 mentioned the quality measures.

NOTE Confidence: 0.860995471477509

00:30:56.790 --> 00:30:58.940 These are copies certified practices,

NOTE Confidence: 0.860995471477509

00:30:58.940 --> 00:31:01.789 so these are practices that have been

NOTE Confidence: 0.860995471477509

00:31:01.789 --> 00:31:04.328 certified to be providing the same

NOTE Confidence: 0.860995471477509

00:31:04.328 --> 00:31:07.226 level of care as the copies survive

NOTE Confidence: 0.860995471477509

00:31:07.310 --> 00:31:09.690 practices in the United States,

NOTE Confidence: 0.860995471477509

00:31:09.690 --> 00:31:12.948 and again is A and we're looking to move
NOTE Confidence: 0.860995471477509

00:31:12.948 --> 00:31:16.139 this more into lower resource settings,
NOTE Confidence: 0.860995471477509

00:31:16.140 --> 00:31:19.199 but we're we're hopeful that this can
NOTE Confidence: 0.860995471477509

00:31:19.199 --> 00:31:22.716 serve as a benchmark for quality care
NOTE Confidence: 0.860995471477509

00:31:22.716 --> 00:31:26.800 delivery in a range of practice settings.
NOTE Confidence: 0.860995471477509

00:31:26.800 --> 00:31:27.191 OK,
NOTE Confidence: 0.860995471477509

00:31:27.191 --> 00:31:30.710 so you may be thinking that all sounds great,
NOTE Confidence: 0.860995471477509

00:31:30.710 --> 00:31:33.056 but in terms of a pandemic,
NOTE Confidence: 0.860995471477509

00:31:33.060 --> 00:31:35.932 how are you able to do some of
NOTE Confidence: 0.860995471477509

00:31:35.932 --> 00:31:37.370 these international programs?
NOTE Confidence: 0.860995471477509

00:31:37.370 --> 00:31:38.072 Right now,
NOTE Confidence: 0.860995471477509

00:31:38.072 --> 00:31:40.178 before I talk about the impact
NOTE Confidence: 0.860995471477509

00:31:40.178 --> 00:31:42.717 of the pandemic on ASKO course,
NOTE Confidence: 0.860995471477509

00:31:42.720 --> 00:31:44.974 we need to pause here for a
NOTE Confidence: 0.860995471477509

00:31:44.974 --> 00:31:45.940 moment and justice
NOTE Confidence: 0.819793701171875

00:31:46.010 --> 00:31:48.448 acknowledges, as you all know,

NOTE Confidence: 0.819793701171875
00:31:48.448 --> 00:31:49.976 better than I really.
NOTE Confidence: 0.819793701171875
00:31:49.980 --> 00:31:52.086 The impact of cancer of the
NOTE Confidence: 0.819793701171875
00:31:52.086 --> 00:31:54.180 pandemic on cancer care delivery,
NOTE Confidence: 0.819793701171875
00:31:54.180 --> 00:31:56.581 and in the Q&A I'd be really
NOTE Confidence: 0.819793701171875
00:31:56.581 --> 00:31:58.528 interested to hear what yells
NOTE Confidence: 0.819793701171875
00:31:58.528 --> 00:32:01.048 experience has been in this regard.
NOTE Confidence: 0.819793701171875
00:32:01.050 --> 00:32:03.342 I just want to like this
NOTE Confidence: 0.819793701171875
00:32:03.342 --> 00:32:04.870 really interesting study again.
NOTE Confidence: 0.819793701171875
00:32:04.870 --> 00:32:06.780 Published in the jaeseok level,
NOTE Confidence: 0.819793701171875
00:32:06.780 --> 00:32:08.332 Oncology 350 cancer centers
NOTE Confidence: 0.819793701171875
00:32:08.332 --> 00:32:09.884 in about 50 countries.
NOTE Confidence: 0.819793701171875
00:32:09.890 --> 00:32:12.186 Snapshot of the impact of the pandemic.
NOTE Confidence: 0.819793701171875
00:32:12.190 --> 00:32:15.133 So this was what I'll call the 1st wave.
NOTE Confidence: 0.819793701171875
00:32:15.140 --> 00:32:17.402 'cause now we're in the second
NOTE Confidence: 0.819793701171875
00:32:17.402 --> 00:32:20.059 wave and the table is just sort
NOTE Confidence: 0.819793701171875

00:32:20.059 --> 00:32:22.537 of gives you a sense by encourage
NOTE Confidence: 0.819793701171875

00:32:22.622 --> 00:32:24.547 you to take a look at it.
NOTE Confidence: 0.819793701171875

00:32:24.550 --> 00:32:28.334 And the impact of the pandemic on cancer
NOTE Confidence: 0.819793701171875

00:32:28.334 --> 00:32:32.092 care in low and middle income countries
NOTE Confidence: 0.819793701171875

00:32:32.092 --> 00:32:36.578 can also be the subject for another talk.
NOTE Confidence: 0.819793701171875

00:32:36.580 --> 00:32:39.968 You know Asko has its registry there.
NOTE Confidence: 0.819793701171875

00:32:39.970 --> 00:32:42.355 Other covid registries in other
NOTE Confidence: 0.819793701171875

00:32:42.355 --> 00:32:45.290 countries think the impact on delay,
NOTE Confidence: 0.819793701171875

00:32:45.290 --> 00:32:46.991 diagnosis and ultimately,
NOTE Confidence: 0.819793701171875

00:32:46.991 --> 00:32:50.960 patient outcomes and cancer as a result
NOTE Confidence: 0.819793701171875

00:32:51.052 --> 00:32:54.020 of the pandemic is yet to be seen.
NOTE Confidence: 0.819793701171875

00:32:54.020 --> 00:32:58.979 And and that will be important data to see.
NOTE Confidence: 0.819793701171875

00:32:58.980 --> 00:33:01.044 Turning to the impact of the
NOTE Confidence: 0.819793701171875

00:33:01.044 --> 00:33:02.076 pandemic on asking.
NOTE Confidence: 0.819793701171875

00:33:02.080 --> 00:33:04.138 Well, first and foremost, of course.
NOTE Confidence: 0.819793701171875

00:33:04.140 --> 00:33:05.172 The annual meeting.

NOTE Confidence: 0.819793701171875
00:33:05.172 --> 00:33:06.548 We had to shift.
NOTE Confidence: 0.819793701171875
00:33:06.550 --> 00:33:08.662 What is a massive scientific meeting
NOTE Confidence: 0.819793701171875
00:33:08.662 --> 00:33:11.018 in Chicago and move it all online.
NOTE Confidence: 0.819793701171875
00:33:11.020 --> 00:33:13.492 Basically in the matter of about 6 to
NOTE Confidence: 0.819793701171875
00:33:13.492 --> 00:33:16.180 8 weeks it was a massive undertaking.
NOTE Confidence: 0.819793701171875
00:33:16.180 --> 00:33:18.232 Those of you who did participate
NOTE Confidence: 0.819793701171875
00:33:18.232 --> 00:33:19.960 I'd be really interested here.
NOTE Confidence: 0.819793701171875
00:33:19.960 --> 00:33:21.680 What you thought we were.
NOTE Confidence: 0.819793701171875
00:33:21.680 --> 00:33:23.750 We were quite pleased with it.
NOTE Confidence: 0.819793701171875
00:33:23.750 --> 00:33:25.742 We the number of attendees were
NOTE Confidence: 0.819793701171875
00:33:25.742 --> 00:33:27.854 comparable to the in person in
NOTE Confidence: 0.819793701171875
00:33:27.854 --> 00:33:30.008 terms of countries we actually got.
NOTE Confidence: 0.819793701171875
00:33:30.010 --> 00:33:32.295 Even greater participation globally and
NOTE Confidence: 0.819793701171875
00:33:32.295 --> 00:33:35.530 actually much greater or not surprisingly,
NOTE Confidence: 0.819793701171875
00:33:35.530 --> 00:33:37.602 greater participation from countries
NOTE Confidence: 0.819793701171875

00:33:37.602 --> 00:33:40.710 where participation in the in person

NOTE Confidence: 0.819793701171875

00:33:40.787 --> 00:33:43.057 might would be more challenging,

NOTE Confidence: 0.819793701171875

00:33:43.060 --> 00:33:46.276 so just easier for clinicians to

NOTE Confidence: 0.819793701171875

00:33:46.276 --> 00:33:49.602 access the insights that are presented

NOTE Confidence: 0.819793701171875

00:33:49.602 --> 00:33:52.848 at the annual meeting this year.

NOTE Confidence: 0.819793701171875

00:33:52.850 --> 00:33:55.986 So that was that was very helpful,

NOTE Confidence: 0.819793701171875

00:33:55.990 --> 00:33:58.230 very informative and just actually

NOTE Confidence: 0.819793701171875

00:33:58.230 --> 00:34:00.022 a final point there.

NOTE Confidence: 0.819793701171875

00:34:00.030 --> 00:34:03.180 I think we learned a lot from

NOTE Confidence: 0.819793701171875

00:34:03.180 --> 00:34:04.080 this experience.

NOTE Confidence: 0.819793701171875

00:34:04.080 --> 00:34:06.780 The benefits of having that come

NOTE Confidence: 0.819793701171875

00:34:06.780 --> 00:34:09.100 online experience says to us

NOTE Confidence: 0.819793701171875

00:34:09.100 --> 00:34:11.710 that having some kind of hybrid

NOTE Confidence: 0.819793701171875

00:34:11.710 --> 00:34:13.949 experience even after a pandemic,

NOTE Confidence: 0.819793701171875

00:34:13.950 --> 00:34:16.650 I'm in a post pandemic environment,

NOTE Confidence: 0.819793701171875

00:34:16.650 --> 00:34:19.583 will likely have some online or hybrid

NOTE Confidence: 0.819793701171875
00:34:19.583 --> 00:34:22.039 components to the annual meeting.
NOTE Confidence: 0.819793701171875
00:34:22.040 --> 00:34:24.604 Going forward it was.
NOTE Confidence: 0.819793701171875
00:34:24.604 --> 00:34:25.886 Extremely helpful.
NOTE Confidence: 0.819793701171875
00:34:25.890 --> 00:34:29.579 So from the start of the pandemic,
NOTE Confidence: 0.819793701171875
00:34:29.580 --> 00:34:32.736 as some of you may know,
NOTE Confidence: 0.819793701171875
00:34:32.740 --> 00:34:35.375 Asko created a resource library
NOTE Confidence: 0.819793701171875
00:34:35.375 --> 00:34:38.010 for care during the pandemic,
NOTE Confidence: 0.819793701171875
00:34:38.010 --> 00:34:41.626 and I just want to highlight this because
NOTE Confidence: 0.819793701171875
00:34:41.626 --> 00:34:45.387 this is another example of innovation.
NOTE Confidence: 0.819793701171875
00:34:45.390 --> 00:34:48.020 Where let's go really crowd
NOTE Confidence: 0.819793701171875
00:34:48.020 --> 00:34:50.124 sourced from its membership.
NOTE Confidence: 0.819793701171875
00:34:50.130 --> 00:34:53.010 What are the challenges for the
NOTE Confidence: 0.819793701171875
00:34:53.010 --> 00:34:55.980 practitioner in the pandemic environment?
NOTE Confidence: 0.819793701171875
00:34:55.980 --> 00:34:57.279 And then Furthermore,
NOTE Confidence: 0.819793701171875
00:34:57.279 --> 00:34:59.444 crowd source the solutions and
NOTE Confidence: 0.819793701171875

00:34:59.444 --> 00:35:01.972 work with its membership to arrive
NOTE Confidence: 0.819793701171875

00:35:01.972 --> 00:35:04.360 at the solution says and answers
NOTE Confidence: 0.819793701171875

00:35:04.430 --> 00:35:06.490 those questions and then compiled
NOTE Confidence: 0.819793701171875

00:35:06.490 --> 00:35:08.969 it all together into this into
NOTE Confidence: 0.819793701171875

00:35:08.969 --> 00:35:10.226 this repository resources.
NOTE Confidence: 0.819793701171875

00:35:10.226 --> 00:35:12.740 So it really kind of shifted.
NOTE Confidence: 0.819793701171875

00:35:12.740 --> 00:35:15.924 I think our relationship in a way with
NOTE Confidence: 0.819793701171875

00:35:15.924 --> 00:35:19.854 our with our membership in a very direct way,
NOTE Confidence: 0.819793701171875

00:35:19.860 --> 00:35:20.946 and I think,
NOTE Confidence: 0.819793701171875

00:35:20.946 --> 00:35:21.308 operas,
NOTE Confidence: 0.819793701171875

00:35:21.308 --> 00:35:23.480 lessons for how we can engage
NOTE Confidence: 0.861002624034882

00:35:23.553 --> 00:35:26.158 our global membership going forward.
NOTE Confidence: 0.861002624034882

00:35:26.160 --> 00:35:30.080 So we took the insides from that repository,
NOTE Confidence: 0.861002624034882

00:35:30.080 --> 00:35:33.419 worked with our international members to kind
NOTE Confidence: 0.861002624034882

00:35:33.419 --> 00:35:36.940 of globalize the guidance and the insights,
NOTE Confidence: 0.861002624034882

00:35:36.940 --> 00:35:39.490 translated the report into 7

NOTE Confidence: 0.861002624034882
00:35:39.490 --> 00:35:43.239 languages and put it out and to
NOTE Confidence: 0.861002624034882
00:35:43.239 --> 00:35:45.989 inform practice around the world.
NOTE Confidence: 0.861002624034882
00:35:45.990 --> 00:35:47.568 Like everyone else,
NOTE Confidence: 0.861002624034882
00:35:47.568 --> 00:35:50.198 as goes been organizing webinars,
NOTE Confidence: 0.861002624034882
00:35:50.200 --> 00:35:53.792 I think for a society like ASCO that
NOTE Confidence: 0.861002624034882
00:35:53.792 --> 00:35:57.040 again has this global membership.
NOTE Confidence: 0.861002624034882
00:35:57.040 --> 00:36:00.946 The webinar series was really an
NOTE Confidence: 0.861002624034882
00:36:00.946 --> 00:36:04.042 incredible experience because again we
NOTE Confidence: 0.861002624034882
00:36:04.042 --> 00:36:07.178 were able to tap into very early on
NOTE Confidence: 0.861002624034882
00:36:07.178 --> 00:36:10.740 in the pandemic when it was really.
NOTE Confidence: 0.861002624034882
00:36:10.740 --> 00:36:14.712 When Italy and Spain and Asia
NOTE Confidence: 0.861002624034882
00:36:14.712 --> 00:36:17.360 were really being affected.
NOTE Confidence: 0.861002624034882
00:36:17.360 --> 00:36:21.014 Drastic way by the pandemic we were able to
NOTE Confidence: 0.861002624034882
00:36:21.014 --> 00:36:24.969 tap into our members in those countries and.
NOTE Confidence: 0.861002624034882
00:36:24.970 --> 00:36:27.020 Host webinars, connect them with
NOTE Confidence: 0.861002624034882

00:36:27.020 --> 00:36:29.070 our members in other countries,
NOTE Confidence: 0.861002624034882

00:36:29.070 --> 00:36:31.530 understand what they were going through,
NOTE Confidence: 0.861002624034882

00:36:31.530 --> 00:36:34.400 what they were learning on the ground,
NOTE Confidence: 0.861002624034882

00:36:34.400 --> 00:36:37.304 and incorporate that into lessons for for our
NOTE Confidence: 0.861002624034882

00:36:37.304 --> 00:36:40.139 members and constituents in other countries.
NOTE Confidence: 0.861002624034882

00:36:40.140 --> 00:36:41.464 So is a very,
NOTE Confidence: 0.861002624034882

00:36:41.464 --> 00:36:44.051 very helpful way for us to connect
NOTE Confidence: 0.861002624034882

00:36:44.051 --> 00:36:47.105 our membership and learn from them.
NOTE Confidence: 0.861002624034882

00:36:47.110 --> 00:36:48.626 And these were recorded.
NOTE Confidence: 0.861002624034882

00:36:48.626 --> 00:36:50.521 So if you're interested there
NOTE Confidence: 0.861002624034882

00:36:50.521 --> 00:36:52.438 an ask's YouTube channel.
NOTE Confidence: 0.861002624034882

00:36:52.440 --> 00:36:54.525 All of those programs that
NOTE Confidence: 0.861002624034882

00:36:54.525 --> 00:36:56.193 I mentioned earlier on.
NOTE Confidence: 0.861002624034882

00:36:56.200 --> 00:36:58.340 We're shifting them over to
NOTE Confidence: 0.861002624034882

00:36:58.340 --> 00:36:59.196 virtual frameworks.
NOTE Confidence: 0.861002624034882

00:36:59.200 --> 00:37:02.210 I won't get into this in detail.

NOTE Confidence: 0.861002624034882
00:37:02.210 --> 00:37:04.472 Happy to get into in the
NOTE Confidence: 0.861002624034882
00:37:04.472 --> 00:37:06.930 Q&A if there is interest,
NOTE Confidence: 0.861002624034882
00:37:06.930 --> 00:37:09.933 so some of you may be familiar
NOTE Confidence: 0.861002624034882
00:37:09.933 --> 00:37:11.220 with Project Echoes,
NOTE Confidence: 0.861002624034882
00:37:11.220 --> 00:37:14.644 which is sort of a Tele education platform.
NOTE Confidence: 0.861002624034882
00:37:14.650 --> 00:37:17.116 So we're doing project Echoes with
NOTE Confidence: 0.861002624034882
00:37:17.116 --> 00:37:19.276 colleagues around the world case
NOTE Confidence: 0.861002624034882
00:37:19.276 --> 00:37:21.076 discussions we've been doing.
NOTE Confidence: 0.861002624034882
00:37:21.080 --> 00:37:22.800 Even doing some guidelines
NOTE Confidence: 0.861002624034882
00:37:22.800 --> 00:37:24.090 adaptation example here,
NOTE Confidence: 0.861002624034882
00:37:24.090 --> 00:37:26.230 working with colleagues and other.
NOTE Confidence: 0.861002624034882
00:37:26.230 --> 00:37:28.360 Countries around the world and
NOTE Confidence: 0.861002624034882
00:37:28.360 --> 00:37:29.638 other collaborative projects.
NOTE Confidence: 0.861002624034882
00:37:29.640 --> 00:37:33.048 So what were some of the lessons learned?
NOTE Confidence: 0.861002624034882
00:37:33.050 --> 00:37:34.000 So again,
NOTE Confidence: 0.861002624034882

00:37:34.000 --> 00:37:36.850 I think ask was learned quite
NOTE Confidence: 0.861002624034882

00:37:36.850 --> 00:37:39.178 a bit in terms of.
NOTE Confidence: 0.861002624034882

00:37:39.180 --> 00:37:42.012 It's meetings and how does it
NOTE Confidence: 0.861002624034882

00:37:42.012 --> 00:37:44.672 help to educate its membership
NOTE Confidence: 0.861002624034882

00:37:44.672 --> 00:37:47.368 in the cancer community?
NOTE Confidence: 0.861002624034882

00:37:47.370 --> 00:37:49.946 There are ways that we can supplement
NOTE Confidence: 0.861002624034882

00:37:49.946 --> 00:37:52.532 the in person education with with
NOTE Confidence: 0.861002624034882

00:37:52.532 --> 00:37:54.877 the online and virtual elements,
NOTE Confidence: 0.861002624034882

00:37:54.880 --> 00:37:56.545 we've discovered ways that we
NOTE Confidence: 0.861002624034882

00:37:56.545 --> 00:37:58.776 can scale up our our global
NOTE Confidence: 0.861002624034882

00:37:58.776 --> 00:38:01.241 impact through E volunteering and
NOTE Confidence: 0.861002624034882

00:38:01.241 --> 00:38:03.213 exploring strategies around that.
NOTE Confidence: 0.861002624034882

00:38:03.220 --> 00:38:05.932 And we've discovered ways that we
NOTE Confidence: 0.861002624034882

00:38:05.932 --> 00:38:08.885 can engage our members in a much
NOTE Confidence: 0.861002624034882

00:38:08.885 --> 00:38:11.015 more direct way to glean from
NOTE Confidence: 0.861002624034882

00:38:11.015 --> 00:38:13.587 them their insights and put that

NOTE Confidence: 0.861002624034882
00:38:13.587 --> 00:38:16.153 into practice in terms of care,
NOTE Confidence: 0.861002624034882
00:38:16.153 --> 00:38:18.268 delivery, and research, I think.
NOTE Confidence: 0.861002624034882
00:38:18.270 --> 00:38:21.036 Ask as members and practices learned
NOTE Confidence: 0.861002624034882
00:38:21.036 --> 00:38:24.370 quite a bit from this experience.
NOTE Confidence: 0.861002624034882
00:38:24.370 --> 00:38:27.406 Just a preview of coming attractions.
NOTE Confidence: 0.861002624034882
00:38:27.410 --> 00:38:30.068 Asko formed a task force called
NOTE Confidence: 0.861002624034882
00:38:30.068 --> 00:38:33.025 the Road to Recovery Task Force
NOTE Confidence: 0.861002624034882
00:38:33.025 --> 00:38:35.755 that outlines some very specific
NOTE Confidence: 0.861002624034882
00:38:35.755 --> 00:38:38.589 lessons learned from the pandemic,
NOTE Confidence: 0.861002624034882
00:38:38.590 --> 00:38:41.050 so efficiencies and innovations that
NOTE Confidence: 0.861002624034882
00:38:41.050 --> 00:38:44.116 can be applied to practice going
NOTE Confidence: 0.861002624034882
00:38:44.116 --> 00:38:46.208 forward and these recommendations
NOTE Confidence: 0.861002624034882
00:38:46.208 --> 00:38:49.300 will be published I believe soon.
NOTE Confidence: 0.861002624034882
00:38:49.300 --> 00:38:54.600 And JC are so. Keep an eye out for that.
NOTE Confidence: 0.861002624034882
00:38:54.600 --> 00:38:55.755 In the meantime,
NOTE Confidence: 0.861002624034882

00:38:55.755 --> 00:38:58.065 turning again to Jaeseok level oncology.
NOTE Confidence: 0.861002624034882

00:38:58.070 --> 00:39:01.526 I recommend that you take a look at this.
NOTE Confidence: 0.861002624034882

00:39:01.530 --> 00:39:03.074 This really interesting paper
NOTE Confidence: 0.861002624034882

00:39:03.074 --> 00:39:04.618 by Selene and colleagues.
NOTE Confidence: 0.861002624034882

00:39:04.620 --> 00:39:08.484 Serve emphasizing some of these same points.
NOTE Confidence: 0.861002624034882

00:39:08.490 --> 00:39:11.808 Ways that we can re imagine
NOTE Confidence: 0.861002624034882

00:39:11.808 --> 00:39:14.020 global oncology clinical trials.
NOTE Confidence: 0.861002624034882

00:39:14.020 --> 00:39:17.392 So the increased use of technology
NOTE Confidence: 0.861002624034882

00:39:17.392 --> 00:39:19.640 opportunities to so called
NOTE Confidence: 0.811478137969971

00:39:19.735 --> 00:39:22.316 cut the clutter, make the
NOTE Confidence: 0.811478137969971

00:39:22.316 --> 00:39:24.528 regulations and paperwork simplified.
NOTE Confidence: 0.811478137969971

00:39:24.530 --> 00:39:27.825 Driving speedy approvals and always
NOTE Confidence: 0.811478137969971

00:39:27.825 --> 00:39:31.980 keeping the patient in the center.
NOTE Confidence: 0.811478137969971

00:39:31.980 --> 00:39:36.132 So, looking beyond the pandemic and
NOTE Confidence: 0.811478137969971

00:39:36.132 --> 00:39:40.000 future directions in global oncology.
NOTE Confidence: 0.853575110435486

00:39:43.100 --> 00:39:46.836 So here I actually just want to step

NOTE Confidence: 0.853575110435486
00:39:46.836 --> 00:39:50.645 back in time a little bit to 2016,
NOTE Confidence: 0.853575110435486
00:39:50.650 --> 00:39:53.010 which is so ask around.
NOTE Confidence: 0.853575110435486
00:39:53.010 --> 00:39:56.139 This time the Board of directors of
NOTE Confidence: 0.853575110435486
00:39:56.139 --> 00:39:59.914 ASCO convened a task force called the
NOTE Confidence: 0.853575110435486
00:39:59.914 --> 00:40:02.839 Global Oncology Leadership Task Force.
NOTE Confidence: 0.853575110435486
00:40:02.840 --> 00:40:05.794 Charged with helping Oscar to chart the
NOTE Confidence: 0.853575110435486
00:40:05.794 --> 00:40:08.596 next round of expansion Brasco globally
NOTE Confidence: 0.853575110435486
00:40:08.596 --> 00:40:11.991 and ask US role in global oncology.
NOTE Confidence: 0.853575110435486
00:40:12.000 --> 00:40:14.502 One of the recommendations of this
NOTE Confidence: 0.853575110435486
00:40:14.502 --> 00:40:17.040 task force was the following.
NOTE Confidence: 0.853575110435486
00:40:17.040 --> 00:40:20.267 As you can see on this slide
NOTE Confidence: 0.853575110435486
00:40:20.267 --> 00:40:22.529 that there is a roll,
NOTE Confidence: 0.853575110435486
00:40:22.530 --> 00:40:25.736 there's an opportunity for ask a transition.
NOTE Confidence: 0.853575110435486
00:40:25.740 --> 00:40:26.882 Global oncology.
NOTE Confidence: 0.853575110435486
00:40:26.882 --> 00:40:28.024 From what?
NOTE Confidence: 0.853575110435486

00:40:28.024 --> 00:40:29.166 Had husband,
NOTE Confidence: 0.853575110435486

00:40:29.170 --> 00:40:32.158 largely informal field to a formal
NOTE Confidence: 0.853575110435486

00:40:32.158 --> 00:40:35.480 field with a strong research component
NOTE Confidence: 0.853575110435486

00:40:35.480 --> 00:40:38.570 and recognize value to oncology
NOTE Confidence: 0.853575110435486

00:40:38.570 --> 00:40:42.269 training and the practices oncology.
NOTE Confidence: 0.853575110435486

00:40:42.270 --> 00:40:44.853 So ask her being ask are then
NOTE Confidence: 0.853575110435486

00:40:44.853 --> 00:40:46.811 formed another task force to
NOTE Confidence: 0.853575110435486

00:40:46.811 --> 00:40:49.127 look at this question in detail?
NOTE Confidence: 0.853575110435486

00:40:49.130 --> 00:40:52.238 And this task force was chaired
NOTE Confidence: 0.853575110435486

00:40:52.238 --> 00:40:53.792 by Julie Gralow.
NOTE Confidence: 0.853575110435486

00:40:53.800 --> 00:40:55.465 With the following members and
NOTE Confidence: 0.853575110435486

00:40:55.465 --> 00:40:57.130 actually we just published the
NOTE Confidence: 0.853575110435486

00:40:57.193 --> 00:40:58.698 recommendations of this task for
NOTE Confidence: 0.853575110435486

00:40:58.698 --> 00:41:00.750 us again on JCO Global Oncology.
NOTE Confidence: 0.853575110435486

00:41:00.750 --> 00:41:04.368 I recommend that you take a look at it.
NOTE Confidence: 0.853575110435486

00:41:04.370 --> 00:41:06.490 But I'll go through that.

NOTE Confidence: 0.853575110435486
00:41:06.490 --> 00:41:09.458 Some of the highlights with you today.
NOTE Confidence: 0.853575110435486
00:41:09.460 --> 00:41:12.274 So first we had to define global
NOTE Confidence: 0.853575110435486
00:41:12.274 --> 00:41:14.120 on card out there.
NOTE Confidence: 0.853575110435486
00:41:14.120 --> 00:41:15.924 Need to have low,
NOTE Confidence: 0.853575110435486
00:41:15.924 --> 00:41:17.728 more specificity around this
NOTE Confidence: 0.853575110435486
00:41:17.728 --> 00:41:19.863 generally seen as the oncology
NOTE Confidence: 0.853575110435486
00:41:19.863 --> 00:41:22.179 as applied to go global health,
NOTE Confidence: 0.853575110435486
00:41:22.180 --> 00:41:25.228 but the task force felt the need to
NOTE Confidence: 0.853575110435486
00:41:25.228 --> 00:41:28.109 have some more definition on this.
NOTE Confidence: 0.853575110435486
00:41:28.110 --> 00:41:30.654 I'll pause here to let you
NOTE Confidence: 0.853575110435486
00:41:30.654 --> 00:41:31.926 read the definition.
NOTE Confidence: 0.864096403121948
00:41:38.210 --> 00:41:40.445 So a fairly comprehensive approach
NOTE Confidence: 0.864096403121948
00:41:40.445 --> 00:41:43.203 and really speaks to the importance
NOTE Confidence: 0.864096403121948
00:41:43.203 --> 00:41:46.283 of level oncology is not solely the
NOTE Confidence: 0.864096403121948
00:41:46.283 --> 00:41:49.212 practice of oncology in a resource
NOTE Confidence: 0.864096403121948

00:41:49.212 --> 00:41:52.044 limited setting, but looking at it,
NOTE Confidence: 0.864096403121948

00:41:52.044 --> 00:41:54.349 holistic Lee across the board,
NOTE Confidence: 0.864096403121948

00:41:54.350 --> 00:41:57.116 and so I think that holistic
NOTE Confidence: 0.864096403121948

00:41:57.116 --> 00:41:58.960 approach is really important.
NOTE Confidence: 0.864096403121948

00:41:58.960 --> 00:42:02.649 So just kind of go through some
NOTE Confidence: 0.864096403121948

00:42:02.649 --> 00:42:04.820 of the recommendations here.
NOTE Confidence: 0.864096403121948

00:42:04.820 --> 00:42:08.444 The first was that, and by the way,
NOTE Confidence: 0.864096403121948

00:42:08.450 --> 00:42:11.628 the Ask a board of directors has
NOTE Confidence: 0.864096403121948

00:42:11.628 --> 00:42:12.990 approved these recommendations.
NOTE Confidence: 0.864096403121948

00:42:12.990 --> 00:42:15.180 Anasco is working to implement
NOTE Confidence: 0.864096403121948

00:42:15.180 --> 00:42:18.387 these and I can provide some some
NOTE Confidence: 0.864096403121948

00:42:18.387 --> 00:42:20.707 highlights or updates on that.
NOTE Confidence: 0.864096403121948

00:42:20.710 --> 00:42:22.438 So first and foremost,
NOTE Confidence: 0.864096403121948

00:42:22.438 --> 00:42:24.598 the importance of raising awareness
NOTE Confidence: 0.864096403121948

00:42:24.598 --> 00:42:27.148 of global oncology and the
NOTE Confidence: 0.864096403121948

00:42:27.148 --> 00:42:29.698 importance of our opportunities or

NOTE Confidence: 0.864096403121948
00:42:29.698 --> 00:42:31.903 incorporating global oncology in heme
NOTE Confidence: 0.864096403121948
00:42:31.903 --> 00:42:34.327 ONC and met on training programs.
NOTE Confidence: 0.864096403121948
00:42:34.330 --> 00:42:37.557 And I'd be really interested to hear.
NOTE Confidence: 0.864096403121948
00:42:37.560 --> 00:42:39.568 What yells experienced in
NOTE Confidence: 0.864096403121948
00:42:39.568 --> 00:42:42.078 has been in this regard,
NOTE Confidence: 0.864096403121948
00:42:42.080 --> 00:42:43.586 and what opportunities,
NOTE Confidence: 0.864096403121948
00:42:43.586 --> 00:42:46.093 if any, provide your your
NOTE Confidence: 0.864096403121948
00:42:46.093 --> 00:42:48.097 trainees in global programs?
NOTE Confidence: 0.864096403121948
00:42:48.100 --> 00:42:50.842 Because Asko Ashley and in talking
NOTE Confidence: 0.864096403121948
00:42:50.842 --> 00:42:54.130 with a CG MA am identified?
NOTE Confidence: 0.864096403121948
00:42:54.130 --> 00:42:56.535 I think more opportunities for
NOTE Confidence: 0.864096403121948
00:42:56.535 --> 00:42:58.940 innovation around the training programs
NOTE Confidence: 0.864096403121948
00:42:59.016 --> 00:43:01.148 that was previously understood.
NOTE Confidence: 0.864096403121948
00:43:01.150 --> 00:43:03.478 So there's no.
NOTE Confidence: 0.864096403121948
00:43:03.478 --> 00:43:05.806 And then beyond.
NOTE Confidence: 0.864096403121948

00:43:05.810 --> 00:43:09.638 Demog working with other special societies,

NOTE Confidence: 0.864096403121948

00:43:09.640 --> 00:43:13.204 Astro and so forth to identify

NOTE Confidence: 0.864096403121948

00:43:13.204 --> 00:43:15.580 opportunities for global to

NOTE Confidence: 0.864096403121948

00:43:15.684 --> 00:43:19.554 incorporate global oncology in the

NOTE Confidence: 0.864096403121948

00:43:19.554 --> 00:43:22.650 training of other subspecialties.

NOTE Confidence: 0.864096403121948

00:43:22.650 --> 00:43:24.798 So global oncology competency.

NOTE Confidence: 0.864096403121948

00:43:24.798 --> 00:43:26.946 So what is it?

NOTE Confidence: 0.864096403121948

00:43:26.950 --> 00:43:30.716 What's required to do global on koleji?

NOTE Confidence: 0.864096403121948

00:43:30.720 --> 00:43:33.168 So ASCA will actually be coming

NOTE Confidence: 0.864096403121948

00:43:33.168 --> 00:43:35.820 out with a companion publication,

NOTE Confidence: 0.864096403121948

00:43:35.820 --> 00:43:38.304 hopefully in the soon in the

NOTE Confidence: 0.864096403121948

00:43:38.304 --> 00:43:40.588 coming year on specifically what

NOTE Confidence: 0.864096403121948

00:43:40.588 --> 00:43:42.780 global oncology competences are,

NOTE Confidence: 0.864096403121948

00:43:42.780 --> 00:43:45.700 so some of them are in a traditional

NOTE Confidence: 0.864096403121948

00:43:45.700 --> 00:43:48.296 sort of global health framework

NOTE Confidence: 0.864096403121948

00:43:48.296 --> 00:43:50.668 or global health training.

NOTE Confidence: 0.864096403121948

00:43:50.670 --> 00:43:53.322 And then there are aspects to

NOTE Confidence: 0.864096403121948

00:43:53.322 --> 00:43:55.634 onkologie in the practice of

NOTE Confidence: 0.864096403121948

00:43:55.634 --> 00:43:57.924 oncologix in a resource limited

NOTE Confidence: 0.864096403121948

00:43:57.924 --> 00:44:00.890 setting that one would not normally.

NOTE Confidence: 0.864096403121948

00:44:00.890 --> 00:44:04.616 Receive as part of their standard.

NOTE Confidence: 0.864096403121948

00:44:04.620 --> 00:44:09.260 Oncology training and so we outline of those.

NOTE Confidence: 0.864096403121948

00:44:09.260 --> 00:44:14.030 Does competency Zaskia perceives them?

NOTE Confidence: 0.864096403121948

00:44:14.030 --> 00:44:15.222 And then we can.

NOTE Confidence: 0.864096403121948

00:44:15.222 --> 00:44:17.010 There's a role for us going

NOTE Confidence: 0.864096403121948

00:44:17.080 --> 00:44:19.450 creating a repository of these

NOTE Confidence: 0.864096403121948

00:44:19.450 --> 00:44:21.346 training opportunities and resources

NOTE Confidence: 0.864096403121948

00:44:21.346 --> 00:44:23.179 as the field develops.

NOTE Confidence: 0.864096403121948

00:44:23.180 --> 00:44:25.840 As the formal academic discipline.

NOTE Confidence: 0.864096403121948

00:44:25.840 --> 00:44:29.809 So turning them to research and practice.

NOTE Confidence: 0.864096403121948

00:44:29.810 --> 00:44:32.510 We need to advocate for the

NOTE Confidence: 0.864096403121948

00:44:32.510 --> 00:44:34.764 importance of global oncology research

NOTE Confidence: 0.864096403121948

00:44:34.764 --> 00:44:37.732 and I just want to pause here a

NOTE Confidence: 0.864096403121948

00:44:37.732 --> 00:44:40.783 moment to to make a point that I

NOTE Confidence: 0.864096403121948

00:44:40.783 --> 00:44:42.306 think is particularly important.

NOTE Confidence: 0.864096403121948

00:44:42.306 --> 00:44:45.960 I, you know, I think we have sort of.

NOTE Confidence: 0.864096403121948

00:44:45.960 --> 00:44:49.220 Sometimes created sort of

NOTE Confidence: 0.864096403121948

00:44:49.220 --> 00:44:51.665 false distinction between.

NOTE Confidence: 0.864096403121948

00:44:51.670 --> 00:44:53.562 Addressing disparities and access

NOTE Confidence: 0.864096403121948

00:44:53.562 --> 00:44:56.935 to care issues in the United States

NOTE Confidence: 0.864096403121948

00:44:56.935 --> 00:44:59.635 and disparities in access to care

NOTE Confidence: 0.864096403121948

00:44:59.635 --> 00:45:02.140 issues outside the United States.

NOTE Confidence: 0.864096403121948

00:45:02.140 --> 00:45:05.476 So one we sort of think as sort

NOTE Confidence: 0.864096403121948

00:45:05.476 --> 00:45:08.510 of domestic issues and then press

NOTE Confidence: 0.864096403121948

00:45:08.510 --> 00:45:11.654 or sort of global health issues.

NOTE Confidence: 0.864096403121948

00:45:11.660 --> 00:45:14.264 I think there is a huge opportunity

NOTE Confidence: 0.864096403121948

00:45:14.264 --> 00:45:17.131 for us to breakdown that barrier

NOTE Confidence: 0.864096403121948
00:45:17.131 --> 00:45:19.901 so the global oncology research
NOTE Confidence: 0.864096403121948
00:45:19.901 --> 00:45:21.680 can directly inform.
NOTE Confidence: 0.864096403121948
00:45:21.680 --> 00:45:24.425 The insights and the improvements
NOTE Confidence: 0.864096403121948
00:45:24.425 --> 00:45:27.717 to care that we potentially can
NOTE Confidence: 0.864096403121948
00:45:27.717 --> 00:45:29.967 make in the United States.
NOTE Confidence: 0.864096403121948
00:45:29.970 --> 00:45:31.521 So, for example,
NOTE Confidence: 0.864096403121948
00:45:31.521 --> 00:45:34.623 in innovation around access to care,
NOTE Confidence: 0.864096403121948
00:45:34.630 --> 00:45:38.542 that's this developed in Mumbai or in in
NOTE Confidence: 0.864096403121948
00:45:38.542 --> 00:45:41.877 another setting outside the United States,
NOTE Confidence: 0.864096403121948
00:45:41.880 --> 00:45:44.532 can provide insights to improve access
NOTE Confidence: 0.864096403121948
00:45:44.532 --> 00:45:48.760 to care in the rural United States or
NOTE Confidence: 0.864096403121948
00:45:48.760 --> 00:45:51.725 other disadvantaged areas in populations.
NOTE Confidence: 0.888849437236786
00:45:51.730 --> 00:45:54.334 So we need to sort of think
NOTE Confidence: 0.888849437236786
00:45:54.334 --> 00:45:57.631 about the role for this kind of
NOTE Confidence: 0.888849437236786
00:45:57.631 --> 00:45:59.715 research domestically as well.
NOTE Confidence: 0.888849437236786

00:45:59.720 --> 00:46:01.061 Make that case.
NOTE Confidence: 0.888849437236786

00:46:01.061 --> 00:46:04.190 So we need to find bridge funding
NOTE Confidence: 0.888849437236786

00:46:04.287 --> 00:46:07.521 so there is funding for getting
NOTE Confidence: 0.888849437236786

00:46:07.521 --> 00:46:10.590 started and global oncology research.
NOTE Confidence: 0.888849437236786

00:46:10.590 --> 00:46:13.045 But we need to support
NOTE Confidence: 0.888849437236786

00:46:13.045 --> 00:46:14.518 investigators through the.
NOTE Confidence: 0.888849437236786

00:46:14.520 --> 00:46:17.088 The continued part of their their
NOTE Confidence: 0.888849437236786

00:46:17.088 --> 00:46:19.768 profession and keep them on the path.
NOTE Confidence: 0.888849437236786

00:46:19.770 --> 00:46:21.204 Through Jaeseok live
NOTE Confidence: 0.888849437236786

00:46:21.204 --> 00:46:23.116 oncology and other channels,
NOTE Confidence: 0.888849437236786

00:46:23.120 --> 00:46:25.505 we've been to same disseminating
NOTE Confidence: 0.888849437236786

00:46:25.505 --> 00:46:26.936 global oncology research.
NOTE Confidence: 0.888849437236786

00:46:26.940 --> 00:46:30.286 But are there opportunities for us to,
NOTE Confidence: 0.888849437236786

00:46:30.290 --> 00:46:31.222 for example,
NOTE Confidence: 0.888849437236786

00:46:31.222 --> 00:46:34.018 present more scientific research at the
NOTE Confidence: 0.888849437236786

00:46:34.018 --> 00:46:36.999 ASCO annual Meeting on Global Oncology?

NOTE Confidence: 0.888849437236786
00:46:37.000 --> 00:46:39.868 And how can we do that?
NOTE Confidence: 0.888849437236786
00:46:39.870 --> 00:46:42.522 And then we need to promote
NOTE Confidence: 0.888849437236786
00:46:42.522 --> 00:46:44.290 equitable relationships between the
NOTE Confidence: 0.888849437236786
00:46:44.369 --> 00:46:47.039 researchers in high resource settings.
NOTE Confidence: 0.888849437236786
00:46:47.040 --> 00:46:48.948 An investigators in the
NOTE Confidence: 0.888849437236786
00:46:48.948 --> 00:46:50.379 lower resource settings,
NOTE Confidence: 0.888849437236786
00:46:50.380 --> 00:46:53.308 making sure that we're learning from
NOTE Confidence: 0.888849437236786
00:46:53.308 --> 00:46:55.783 the listening to investigators in
NOTE Confidence: 0.888849437236786
00:46:55.783 --> 00:46:58.028 those layers or resource settings,
NOTE Confidence: 0.888849437236786
00:46:58.030 --> 00:47:01.724 because that's the whole point, isn't it?
NOTE Confidence: 0.888849437236786
00:47:01.724 --> 00:47:04.332 Making sure that that's
NOTE Confidence: 0.888849437236786
00:47:04.332 --> 00:47:05.636 equitable relationship.
NOTE Confidence: 0.888849437236786
00:47:05.640 --> 00:47:08.440 And then in terms of
NOTE Confidence: 0.888849437236786
00:47:08.440 --> 00:47:09.560 professional development.
NOTE Confidence: 0.888849437236786
00:47:09.560 --> 00:47:13.200 This role for ASCO as a professional home
NOTE Confidence: 0.888849437236786

00:47:13.200 --> 00:47:16.808 for the global oncologist community.
NOTE Confidence: 0.888849437236786

00:47:16.810 --> 00:47:19.744 So for the next generation helping
NOTE Confidence: 0.888849437236786

00:47:19.744 --> 00:47:22.392 to connect them with networking
NOTE Confidence: 0.888849437236786

00:47:22.392 --> 00:47:25.968 opportunities to be mentored from The
NOTE Confidence: 0.888849437236786

00:47:25.968 --> 00:47:29.558 Pioneers in global oncology and being
NOTE Confidence: 0.888849437236786

00:47:29.558 --> 00:47:32.403 a repository for career opportunities
NOTE Confidence: 0.888849437236786

00:47:32.403 --> 00:47:35.674 as they emerge in global oncology.
NOTE Confidence: 0.888849437236786

00:47:35.674 --> 00:47:37.267 As I said,
NOTE Confidence: 0.888849437236786

00:47:37.270 --> 00:47:39.826 there are many pioneers in this
NOTE Confidence: 0.888849437236786

00:47:39.826 --> 00:47:42.849 field and the role for professional
NOTE Confidence: 0.888849437236786

00:47:42.849 --> 00:47:46.533 society like Oscar to recognize these
NOTE Confidence: 0.888849437236786

00:47:46.533 --> 00:47:49.103 leaders celebrate them and again
NOTE Confidence: 0.888849437236786

00:47:49.103 --> 00:47:52.029 support the emergence of this as a
NOTE Confidence: 0.888849437236786

00:47:52.030 --> 00:47:54.485 respected and recognized field and
NOTE Confidence: 0.888849437236786

00:47:54.485 --> 00:47:56.449 then some overall recommendations.
NOTE Confidence: 0.888849437236786

00:47:56.450 --> 00:47:58.318 Integrating global oncology into

NOTE Confidence: 0.888849437236786
00:47:58.318 --> 00:48:00.186 all those international programs
NOTE Confidence: 0.888849437236786
00:48:00.186 --> 00:48:02.202 that I highlighted previously
NOTE Confidence: 0.888849437236786
00:48:02.202 --> 00:48:04.732 on the importance of partnering
NOTE Confidence: 0.888849437236786
00:48:04.732 --> 00:48:06.840 with oncology societies another.
NOTE Confidence: 0.888849437236786
00:48:06.840 --> 00:48:08.334 Organizations including DNC.
NOTE Confidence: 0.888849437236786
00:48:08.334 --> 00:48:11.322 I've NCI Center for Global Health
NOTE Confidence: 0.888849437236786
00:48:11.322 --> 00:48:13.199 in the ovary center.
NOTE Confidence: 0.888849437236786
00:48:13.200 --> 00:48:15.880 So in the time remaining,
NOTE Confidence: 0.888849437236786
00:48:15.880 --> 00:48:20.160 I hope I'm still doing OK with time.
NOTE Confidence: 0.888849437236786
00:48:20.160 --> 00:48:22.300 Just a few sort
NOTE Confidence: 0.857632040977478
00:48:22.300 --> 00:48:24.440 of personal reflections on
NOTE Confidence: 0.857632040977478
00:48:24.440 --> 00:48:27.040 10 minutes. Doug perfect. So
NOTE Confidence: 0.80366438627243
00:48:27.040 --> 00:48:30.197 these are sort of more my personal
NOTE Confidence: 0.80366438627243
00:48:30.197 --> 00:48:31.550 reflections don't necessarily
NOTE Confidence: 0.80366438627243
00:48:31.624 --> 00:48:33.809 reflect ask as formal position,
NOTE Confidence: 0.80366438627243

00:48:33.810 --> 00:48:36.378 but as was mentioned in the
NOTE Confidence: 0.80366438627243

00:48:36.378 --> 00:48:38.090 introduction and thanks again
NOTE Confidence: 0.80366438627243

00:48:38.166 --> 00:48:40.566 for that very kind introduction.
NOTE Confidence: 0.80366438627243

00:48:40.570 --> 00:48:42.378 I came to ask.
NOTE Confidence: 0.80366438627243

00:48:42.378 --> 00:48:45.080 Oh, not from the cancer community.
NOTE Confidence: 0.80366438627243

00:48:45.080 --> 00:48:46.884 I didn't have professional
NOTE Confidence: 0.80366438627243

00:48:46.884 --> 00:48:48.237 background and cancer,
NOTE Confidence: 0.80366438627243

00:48:48.240 --> 00:48:51.159 certainly not on koleji And I was
NOTE Confidence: 0.80366438627243

00:48:51.159 --> 00:48:54.968 new to the Medical Association field,
NOTE Confidence: 0.80366438627243

00:48:54.970 --> 00:48:58.338 so I came from the standard sort of
NOTE Confidence: 0.80366438627243

00:48:58.338 --> 00:49:01.338 global health international NGO world.
NOTE Confidence: 0.80366438627243

00:49:01.340 --> 00:49:04.896 So with that sort of outsiders press
NOTE Confidence: 0.80366438627243

00:49:04.896 --> 00:49:07.423 perspective really kind of actually
NOTE Confidence: 0.80366438627243

00:49:07.423 --> 00:49:10.153 came clear to me quite quickly.
NOTE Confidence: 0.80366438627243

00:49:10.160 --> 00:49:12.004 What a huge environment,
NOTE Confidence: 0.80366438627243

00:49:12.004 --> 00:49:14.309 vibrant and surprisingly for me

NOTE Confidence: 0.80366438627243

00:49:14.309 --> 00:49:16.039 surprisingly vibrant community,

NOTE Confidence: 0.80366438627243

00:49:16.040 --> 00:49:18.000 the oncologist society community

NOTE Confidence: 0.80366438627243

00:49:18.000 --> 00:49:22.362 is so not just ask, of course.

NOTE Confidence: 0.80366438627243

00:49:22.362 --> 00:49:28.098 Ash Astro ACR pathology societies ACP.

NOTE Confidence: 0.80366438627243

00:49:28.100 --> 00:49:31.076 Mother's doing great work.

NOTE Confidence: 0.80366438627243

00:49:31.076 --> 00:49:33.308 International societies with.

NOTE Confidence: 0.80366438627243

00:49:33.310 --> 00:49:34.766 Sigh up in Pediatrics.

NOTE Confidence: 0.80366438627243

00:49:34.766 --> 00:49:36.950 I ogan geriatric oncology and of

NOTE Confidence: 0.80366438627243

00:49:37.025 --> 00:49:39.145 course all the national societies

NOTE Confidence: 0.80366438627243

00:49:39.145 --> 00:49:41.265 in countries around the world.

NOTE Confidence: 0.80366438627243

00:49:41.270 --> 00:49:44.446 And so when I look at this community,

NOTE Confidence: 0.80366438627243

00:49:44.450 --> 00:49:47.250 I just I see a huge opportunity for

NOTE Confidence: 0.80366438627243

00:49:47.250 --> 00:49:49.797 societies like Oscar to support Global

NOTE Confidence: 0.80366438627243

00:49:49.797 --> 00:49:52.012 Cancer Control and Global Health.

NOTE Confidence: 0.80366438627243

00:49:52.020 --> 00:49:53.118 You know when?

NOTE Confidence: 0.80366438627243

00:49:53.118 --> 00:49:56.141 When I was working with the Red Cross
NOTE Confidence: 0.80366438627243

00:49:56.141 --> 00:49:58.808 and we would do start a program
NOTE Confidence: 0.80366438627243

00:49:58.808 --> 00:50:01.170 in another in another country,
NOTE Confidence: 0.80366438627243

00:50:01.170 --> 00:50:03.165 there are significant investments that
NOTE Confidence: 0.80366438627243

00:50:03.165 --> 00:50:05.160 International Energy needs to make.
NOTE Confidence: 0.80366438627243

00:50:05.160 --> 00:50:07.190 To do programs you know you need
NOTE Confidence: 0.80366438627243

00:50:07.190 --> 00:50:09.624 to set up the field office hire
NOTE Confidence: 0.80366438627243

00:50:09.624 --> 00:50:11.489 staff and stones these Jeeps
NOTE Confidence: 0.80366438627243

00:50:11.489 --> 00:50:13.866 you know all that sort of thing.
NOTE Confidence: 0.80366438627243

00:50:13.870 --> 00:50:15.875 These international NGOs would would
NOTE Confidence: 0.80366438627243

00:50:15.875 --> 00:50:18.718 give their right arm for the assets
NOTE Confidence: 0.80366438627243

00:50:18.718 --> 00:50:20.246 that societies potentially can
NOTE Confidence: 0.80366438627243

00:50:20.246 --> 00:50:22.959 bring to bear to to global health.
NOTE Confidence: 0.80366438627243

00:50:22.960 --> 00:50:25.774 So first and foremost we have our
NOTE Confidence: 0.80366438627243

00:50:25.774 --> 00:50:28.433 members that depth of the knowledge
NOTE Confidence: 0.80366438627243

00:50:28.433 --> 00:50:31.169 of our members and their experience.

NOTE Confidence: 0.80366438627243

00:50:31.170 --> 00:50:33.090 Which is a huge asset.

NOTE Confidence: 0.80366438627243

00:50:33.090 --> 00:50:35.388 These members are in the field,

NOTE Confidence: 0.80366438627243

00:50:35.390 --> 00:50:37.758 so right now as we speak we have

NOTE Confidence: 0.80366438627243

00:50:37.758 --> 00:50:39.814 hundreds of ASCO members practicing

NOTE Confidence: 0.80366438627243

00:50:39.814 --> 00:50:43.062 oncology and low and middle income countries.

NOTE Confidence: 0.80366438627243

00:50:43.070 --> 00:50:46.038 This is their day today and the

NOTE Confidence: 0.80366438627243

00:50:46.038 --> 00:50:48.146 insights and experiences that they

NOTE Confidence: 0.80366438627243

00:50:48.146 --> 00:50:50.792 have from their practice is a huge

NOTE Confidence: 0.80366438627243

00:50:50.792 --> 00:50:53.253 asset as we think about how to

NOTE Confidence: 0.80366438627243

00:50:53.253 --> 00:50:55.430 improve the care in these settings.

NOTE Confidence: 0.80366438627243

00:50:55.430 --> 00:50:56.270 The network,

NOTE Confidence: 0.80366438627243

00:50:56.270 --> 00:50:58.370 so these members all have

NOTE Confidence: 0.80366438627243

00:50:58.370 --> 00:50:59.730 professional relationships,

NOTE Confidence: 0.80366438627243

00:50:59.730 --> 00:51:00.990 formal and informal,

NOTE Confidence: 0.80366438627243

00:51:00.990 --> 00:51:03.930 that we can tap into to improve,

NOTE Confidence: 0.80366438627243

00:51:03.930 --> 00:51:05.190 to deliver programs.
NOTE Confidence: 0.80366438627243

00:51:05.190 --> 00:51:07.290 Societies are always forward looking,
NOTE Confidence: 0.80366438627243

00:51:07.290 --> 00:51:09.375 so a big research component
NOTE Confidence: 0.80366438627243

00:51:09.375 --> 00:51:12.369 always like you know what is the
NOTE Confidence: 0.80366438627243

00:51:12.369 --> 00:51:14.847 evidence says so in our guidelines.
NOTE Confidence: 0.80366438627243

00:51:14.850 --> 00:51:16.950 In our in our presentations.
NOTE Confidence: 0.80366438627243

00:51:16.950 --> 00:51:20.072 In our in our publications it's always
NOTE Confidence: 0.80366438627243

00:51:20.072 --> 00:51:23.418 forward looking and building on the evidence.
NOTE Confidence: 0.80366438627243

00:51:23.420 --> 00:51:24.836 Societies have authority.
NOTE Confidence: 0.80366438627243

00:51:24.836 --> 00:51:26.724 It's societies like Oscar.
NOTE Confidence: 0.80366438627243

00:51:26.730 --> 00:51:29.160 Their opinion is respected and
NOTE Confidence: 0.80366438627243

00:51:29.160 --> 00:51:32.146 carries weight and related to that
NOTE Confidence: 0.80366438627243

00:51:32.146 --> 00:51:34.966 we have influence that we have
NOTE Confidence: 0.80366438627243

00:51:34.966 --> 00:51:37.352 access to policymakers either in
NOTE Confidence: 0.80366438627243

00:51:37.352 --> 00:51:40.028 the United States or are members
NOTE Confidence: 0.80366438627243

00:51:40.028 --> 00:51:42.282 in countries around the world.

NOTE Confidence: 0.80366438627243

00:51:42.282 --> 00:51:45.006 Often are in position to influence

NOTE Confidence: 0.80366438627243

00:51:45.006 --> 00:51:47.539 policy makers in their countries.

NOTE Confidence: 0.80366438627243

00:51:47.540 --> 00:51:50.420 So taken together there is enormous

NOTE Confidence: 0.80366438627243

00:51:50.420 --> 00:51:52.906 potential life thing for societies

NOTE Confidence: 0.80366438627243

00:51:52.906 --> 00:51:55.306 to have a positive impact.

NOTE Confidence: 0.80366438627243

00:51:55.310 --> 00:51:57.554 In in global oncology in global

NOTE Confidence: 0.80366438627243

00:51:57.554 --> 00:51:59.504 health generally it maybe because

NOTE Confidence: 0.80366438627243

00:51:59.504 --> 00:52:01.419 I've two teenagers at home.

NOTE Confidence: 0.80366438627243

00:52:01.420 --> 00:52:04.476 I sort of think of it this way,

NOTE Confidence: 0.80366438627243

00:52:04.480 --> 00:52:06.365 but I think the societies

NOTE Confidence: 0.80366438627243

00:52:06.365 --> 00:52:08.250 and global health are at

NOTE Confidence: 0.847718417644501

00:52:08.327 --> 00:52:10.589 a sort of an adolescent stage.

NOTE Confidence: 0.847718417644501

00:52:10.590 --> 00:52:12.882 I think we're just scratching the

NOTE Confidence: 0.847718417644501

00:52:12.882 --> 00:52:14.410 surface were growing internationally,

NOTE Confidence: 0.847718417644501

00:52:14.410 --> 00:52:16.320 starting to apply our strengths,

NOTE Confidence: 0.847718417644501

00:52:16.320 --> 00:52:18.939 but but I think we can do more where
NOTE Confidence: 0.847718417644501

00:52:18.939 --> 00:52:21.583 the challenges of the world and figuring
NOTE Confidence: 0.847718417644501

00:52:21.583 --> 00:52:25.048 out what is the role for societies like
NOTE Confidence: 0.847718417644501

00:52:25.048 --> 00:52:27.393 Ascot to address these challenges.
NOTE Confidence: 0.847718417644501

00:52:27.400 --> 00:52:29.195 ASKO, in other societies were
NOTE Confidence: 0.847718417644501

00:52:29.195 --> 00:52:32.034 not going to do it all. You know.
NOTE Confidence: 0.847718417644501

00:52:32.034 --> 00:52:34.690 We have our niche you can see in
NOTE Confidence: 0.847718417644501

00:52:34.775 --> 00:52:37.145 the bottom right of the slide.
NOTE Confidence: 0.847718417644501

00:52:37.150 --> 00:52:39.160 Our tagline knowledge conquers cancer or
NOTE Confidence: 0.847718417644501

00:52:39.160 --> 00:52:41.480 focuses on knowledge and capacity building.
NOTE Confidence: 0.847718417644501

00:52:41.480 --> 00:52:44.664 How does that slot into the other components
NOTE Confidence: 0.847718417644501

00:52:44.664 --> 00:52:47.450 of global oncology in global health?
NOTE Confidence: 0.847718417644501

00:52:47.450 --> 00:52:48.216 And overall,
NOTE Confidence: 0.847718417644501

00:52:48.216 --> 00:52:51.280 I just think it's a very exciting time
NOTE Confidence: 0.847718417644501

00:52:51.361 --> 00:52:54.364 of promise and potential in that regard.
NOTE Confidence: 0.847718417644501

00:52:54.370 --> 00:52:57.219 What are the challenges to realizing this?

NOTE Confidence: 0.847718417644501
00:52:57.220 --> 00:52:58.844 So in global health,
NOTE Confidence: 0.847718417644501
00:52:58.844 --> 00:53:00.874 as many of you know,
NOTE Confidence: 0.847718417644501
00:53:00.880 --> 00:53:03.202 you have to strengthen the health
NOTE Confidence: 0.847718417644501
00:53:03.202 --> 00:53:06.578 systems you have to take a systems approach.
NOTE Confidence: 0.847718417644501
00:53:06.580 --> 00:53:07.876 And quite honestly,
NOTE Confidence: 0.847718417644501
00:53:07.876 --> 00:53:10.900 this is not always emphasized and so
NOTE Confidence: 0.847718417644501
00:53:10.982 --> 00:53:13.754 we need to be mindful of that and try
NOTE Confidence: 0.847718417644501
00:53:13.754 --> 00:53:17.160 to approach it from a systems perspective.
NOTE Confidence: 0.847718417644501
00:53:17.160 --> 00:53:17.932 Implementation signs.
NOTE Confidence: 0.847718417644501
00:53:17.932 --> 00:53:20.634 We always need more data and evidence
NOTE Confidence: 0.847718417644501
00:53:20.634 --> 00:53:23.149 on how to what programs have impact.
NOTE Confidence: 0.847718417644501
00:53:23.150 --> 00:53:25.796 How do we know that they have
NOTE Confidence: 0.847718417644501
00:53:25.796 --> 00:53:27.703 impact and incorporate that into
NOTE Confidence: 0.847718417644501
00:53:27.703 --> 00:53:30.132 the actions that we that we take?
NOTE Confidence: 0.847718417644501
00:53:30.140 --> 00:53:31.488 Our volunteers are outstanding.
NOTE Confidence: 0.847718417644501

00:53:31.488 --> 00:53:34.023 We couldn't do what we do without
NOTE Confidence: 0.847718417644501

00:53:34.023 --> 00:53:34.929 our volunteers,
NOTE Confidence: 0.847718417644501

00:53:34.930 --> 00:53:37.402 but there are there volunteers that
NOTE Confidence: 0.847718417644501

00:53:37.402 --> 00:53:40.120 are dedicated but they need to be
NOTE Confidence: 0.847718417644501

00:53:40.120 --> 00:53:42.451 supported and their work needs to be
NOTE Confidence: 0.847718417644501

00:53:42.531 --> 00:53:45.227 formalized in a way in our in country.
NOTE Confidence: 0.847718417644501

00:53:45.230 --> 00:53:46.702 Members have multiple demands
NOTE Confidence: 0.847718417644501

00:53:46.702 --> 00:53:48.542 on their time and that's.
NOTE Confidence: 0.847718417644501

00:53:48.550 --> 00:53:49.878 That's always a challenge,
NOTE Confidence: 0.847718417644501

00:53:49.878 --> 00:53:51.206 so this kind of,
NOTE Confidence: 0.847718417644501

00:53:51.210 --> 00:53:53.261 in my mind points again to the
NOTE Confidence: 0.847718417644501

00:53:53.261 --> 00:53:55.190 need to formalize global oncology.
NOTE Confidence: 0.847718417644501

00:53:55.190 --> 00:53:56.201 And doing that,
NOTE Confidence: 0.847718417644501

00:53:56.201 --> 00:53:58.560 we need to learn from other global
NOTE Confidence: 0.847718417644501

00:53:58.630 --> 00:54:00.990 health disciplines and experiences.
NOTE Confidence: 0.847718417644501

00:54:00.990 --> 00:54:02.838 So, just to summarize,

NOTE Confidence: 0.847718417644501
00:54:02.838 --> 00:54:04.686 the take home messages,
NOTE Confidence: 0.847718417644501
00:54:04.690 --> 00:54:07.840 I hope I've helped helped everyone to
NOTE Confidence: 0.847718417644501
00:54:07.840 --> 00:54:11.109 sort of informed you with about the
NOTE Confidence: 0.847718417644501
00:54:11.109 --> 00:54:13.857 rising global cancer burden and that
NOTE Confidence: 0.847718417644501
00:54:13.948 --> 00:54:16.696 this has been this rises private.
NOTE Confidence: 0.847718417644501
00:54:16.700 --> 00:54:19.472 Overall shift and CDs and low
NOTE Confidence: 0.847718417644501
00:54:19.472 --> 00:54:21.856 and middle income countries ask
NOTE Confidence: 0.847718417644501
00:54:21.856 --> 00:54:24.086 was not just an organization,
NOTE Confidence: 0.847718417644501
00:54:24.090 --> 00:54:26.862 the community that can be harnessed
NOTE Confidence: 0.847718417644501
00:54:26.862 --> 00:54:28.710 to address these challenges,
NOTE Confidence: 0.847718417644501
00:54:28.710 --> 00:54:31.476 the pandemic, while a global catastrophe,
NOTE Confidence: 0.847718417644501
00:54:31.480 --> 00:54:32.278 of course.
NOTE Confidence: 0.847718417644501
00:54:32.278 --> 00:54:33.874 Has Forrest innovations that
NOTE Confidence: 0.847718417644501
00:54:33.874 --> 00:54:36.464 kind of a lasting and potentially
NOTE Confidence: 0.847718417644501
00:54:36.464 --> 00:54:39.236 positive impact on this response and
NOTE Confidence: 0.847718417644501

00:54:39.236 --> 00:54:41.541 it's critical to formalize global
NOTE Confidence: 0.847718417644501

00:54:41.541 --> 00:54:43.726 oncology in terms of training,
NOTE Confidence: 0.847718417644501

00:54:43.730 --> 00:54:44.288 mentorship,
NOTE Confidence: 0.847718417644501

00:54:44.288 --> 00:54:47.078 research and practice in societies
NOTE Confidence: 0.847718417644501

00:54:47.078 --> 00:54:50.647 like Costco can have a major role
NOTE Confidence: 0.847718417644501

00:54:50.647 --> 00:54:51.895 in global health.
NOTE Confidence: 0.847718417644501

00:54:51.900 --> 00:54:54.540 So I'd like to thank the
NOTE Confidence: 0.847718417644501

00:54:54.540 --> 00:54:55.860 International Affairs Committee,
NOTE Confidence: 0.847718417644501

00:54:55.860 --> 00:54:58.422 in particular the chair of our
NOTE Confidence: 0.847718417644501

00:54:58.422 --> 00:55:00.700 committee Clarissa Mathias or Brazil,
NOTE Confidence: 0.847718417644501

00:55:00.700 --> 00:55:02.900 and all of our members.
NOTE Confidence: 0.847718417644501

00:55:02.900 --> 00:55:05.828 You can see from all over the world
NOTE Confidence: 0.847718417644501

00:55:05.828 --> 00:55:09.058 and just a fantastic group volunteers,
NOTE Confidence: 0.847718417644501

00:55:09.060 --> 00:55:10.924 the international favorite staff,
NOTE Confidence: 0.847718417644501

00:55:10.924 --> 00:55:13.720 small small Team but call them
NOTE Confidence: 0.847718417644501

00:55:13.801 --> 00:55:15.986 my special forces because we're

NOTE Confidence: 0.847718417644501

00:55:15.986 --> 00:55:17.734 small but high impact.

NOTE Confidence: 0.847718417644501

00:55:17.740 --> 00:55:20.516 And then finally, if all through all this,

NOTE Confidence: 0.847718417644501

00:55:20.520 --> 00:55:22.956 some of you have been thinking well,

NOTE Confidence: 0.847718417644501

00:55:22.960 --> 00:55:25.047 this global health sounds like, well,

NOTE Confidence: 0.847718417644501

00:55:25.047 --> 00:55:27.476 like the restoration of a vintage car.

NOTE Confidence: 0.847718417644501

00:55:27.480 --> 00:55:27.828 Well,

NOTE Confidence: 0.847718417644501

00:55:27.828 --> 00:55:30.612 you'd be spot on because like global health,

NOTE Confidence: 0.869634211063385

00:55:30.620 --> 00:55:33.404 you need a range of stakeholders to do

NOTE Confidence: 0.869634211063385

00:55:33.404 --> 00:55:35.328 this work, including your dog Jasmine.

NOTE Confidence: 0.869634211063385

00:55:35.328 --> 00:55:37.748 And sometimes you need to do things

NOTE Confidence: 0.869634211063385

00:55:37.748 --> 00:55:39.734 differently. So in this case,

NOTE Confidence: 0.869634211063385

00:55:39.734 --> 00:55:41.564 installing the engine from underneath

NOTE Confidence: 0.869634211063385

00:55:41.564 --> 00:55:43.544 the car is supposed to from

NOTE Confidence: 0.869634211063385

00:55:43.544 --> 00:55:45.899 above and you always have to be

NOTE Confidence: 0.869634211063385

00:55:45.899 --> 00:55:47.749 thinking about the next generation.

NOTE Confidence: 0.869634211063385

00:55:47.750 --> 00:55:49.720 This case, my daughter Taylor
NOTE Confidence: 0.869634211063385

00:55:49.720 --> 00:55:52.522 and teaching her how to work on
NOTE Confidence: 0.869634211063385

00:55:52.522 --> 00:55:55.175 cars so that happy to welcome any
NOTE Confidence: 0.869634211063385

00:55:55.175 --> 00:55:57.598 questions and answer any questions
NOTE Confidence: 0.869634211063385

00:55:57.598 --> 00:55:59.566 and look further discussion.
NOTE Confidence: 0.843407154083252

00:56:00.400 --> 00:56:02.524 Thanks Doug, that for this incredible
NOTE Confidence: 0.843407154083252

00:56:02.524 --> 00:56:05.497 overview of all the work that ASCO is doing,
NOTE Confidence: 0.843407154083252

00:56:05.500 --> 00:56:08.036 I was not aware of the breath and
NOTE Confidence: 0.843407154083252

00:56:08.036 --> 00:56:10.939 scope of it all and really thought it.
NOTE Confidence: 0.843407154083252

00:56:10.940 --> 00:56:13.332 But I know many of my Harvard colleagues
NOTE Confidence: 0.843407154083252

00:56:13.332 --> 00:56:15.697 go to the conference in Chicago,
NOTE Confidence: 0.843407154083252

00:56:15.700 --> 00:56:18.150 and they've presented a lot of the
NOTE Confidence: 0.843407154083252

00:56:18.150 --> 00:56:19.779 epidemiologic research and so forth,
NOTE Confidence: 0.843407154083252

00:56:19.780 --> 00:56:22.108 so I had been aware of the extent
NOTE Confidence: 0.843407154083252

00:56:22.108 --> 00:56:24.540 of your work and global oncology.
NOTE Confidence: 0.843407154083252

00:56:24.540 --> 00:56:26.580 I'm wondering just to start off,

NOTE Confidence: 0.843407154083252

00:56:26.580 --> 00:56:29.300 we have a few other questions as well,

NOTE Confidence: 0.843407154083252

00:56:29.300 --> 00:56:31.694 like the NCI has picked up as.

NOTE Confidence: 0.843407154083252

00:56:31.700 --> 00:56:33.860 On global oncology being very important.

NOTE Confidence: 0.843407154083252

00:56:33.860 --> 00:56:35.060 As Charlie mentioned,

NOTE Confidence: 0.843407154083252

00:56:35.060 --> 00:56:37.860 I think early on and I'm wondering

NOTE Confidence: 0.843407154083252

00:56:37.931 --> 00:56:39.857 was that just like parallel worlds

NOTE Confidence: 0.843407154083252

00:56:39.857 --> 00:56:42.857 or is it a result of sort of some?

NOTE Confidence: 0.843407154083252

00:56:42.860 --> 00:56:44.840 The advocacy that your Department

NOTE Confidence: 0.843407154083252

00:56:44.840 --> 00:56:47.885 has been doing an you know how are

NOTE Confidence: 0.843407154083252

00:56:47.885 --> 00:56:49.871 you working with MCI and where

NOTE Confidence: 0.843407154083252

00:56:49.871 --> 00:56:51.856 do you see NCI going with

NOTE Confidence: 0.832647001743317

00:56:51.860 --> 00:56:54.600 this? Yeah, no an NCI.

NOTE Confidence: 0.832647001743317

00:56:54.600 --> 00:56:56.044 They've been terrific partners.

NOTE Confidence: 0.832647001743317

00:56:56.044 --> 00:56:57.849 We work very closely together.

NOTE Confidence: 0.832647001743317

00:56:57.850 --> 00:56:59.370 I really think Donna,

NOTE Confidence: 0.832647001743317

00:56:59.370 --> 00:57:01.650 so this is really emerged and
NOTE Confidence: 0.832647001743317

00:57:01.734 --> 00:57:03.840 one of the reasons I started
NOTE Confidence: 0.832647001743317

00:57:03.840 --> 00:57:06.327 with that that the UN meeting I
NOTE Confidence: 0.832647001743317

00:57:06.327 --> 00:57:08.679 really think over the past 10 or
NOTE Confidence: 0.832647001743317

00:57:08.680 --> 00:57:10.816 15 years there has been emerging
NOTE Confidence: 0.832647001743317

00:57:10.816 --> 00:57:13.019 consensus and focus on this issue.
NOTE Confidence: 0.832647001743317

00:57:13.020 --> 00:57:15.620 I think arising awareness of the rise of
NOTE Confidence: 0.832647001743317

00:57:15.620 --> 00:57:18.429 cancer in low and middle income countries.
NOTE Confidence: 0.832647001743317

00:57:18.430 --> 00:57:21.409 And so I think the NCI center was an
NOTE Confidence: 0.832647001743317

00:57:21.409 --> 00:57:23.909 outgrowth of that rising awareness and.
NOTE Confidence: 0.832647001743317

00:57:23.910 --> 00:57:26.850 Just sort of been the zeitgeisty.
NOTE Confidence: 0.832647001743317

00:57:26.850 --> 00:57:30.280 Well they were all working on this
NOTE Confidence: 0.805326111938643

00:57:30.280 --> 00:57:32.401 step. Yeah, great now I need childcare
NOTE Confidence: 0.805326111938643

00:57:32.401 --> 00:57:34.951 is ask can you speak to how institutions
NOTE Confidence: 0.805326111938643

00:57:34.951 --> 00:57:37.708 and Ella Mai sees low and middle income?
NOTE Confidence: 0.805326111938643

00:57:37.710 --> 00:57:39.600 Countries can become Q API certified.

NOTE Confidence: 0.805326111938643
00:57:39.600 --> 00:57:41.805 I don't even know what that means
NOTE Confidence: 0.805326111938643
00:57:41.805 --> 00:57:44.010 so maybe you can answer that for
NOTE Confidence: 0.805326111938643
00:57:44.010 --> 00:57:46.082 those of us who don't know and
NOTE Confidence: 0.805326111938643
00:57:46.082 --> 00:57:47.790 then maybe addressed the question.
NOTE Confidence: 0.860164999961853
00:57:48.640 --> 00:57:51.826 Yeah, so this is this is the copy program,
NOTE Confidence: 0.860164999961853
00:57:51.830 --> 00:57:54.710 so this is a quality measurement program and
NOTE Confidence: 0.860164999961853
00:57:54.710 --> 00:57:57.838 and so there is a legal component to it.
NOTE Confidence: 0.860164999961853
00:57:57.840 --> 00:58:01.380 So you know there's some time to get into it.
NOTE Confidence: 0.860164999961853
00:58:01.380 --> 00:58:03.570 But are lawyers need to assess
NOTE Confidence: 0.860164999961853
00:58:03.570 --> 00:58:05.723 the patient data privacy laws in
NOTE Confidence: 0.860164999961853
00:58:05.723 --> 00:58:07.595 each countries to see whether we
NOTE Confidence: 0.860164999961853
00:58:07.595 --> 00:58:09.878 can do copy in those countries?
NOTE Confidence: 0.860164999961853
00:58:09.880 --> 00:58:11.256 But assuming that we,
NOTE Confidence: 0.860164999961853
00:58:11.256 --> 00:58:14.100 the legal analysis has been done in a
NOTE Confidence: 0.860164999961853
00:58:14.100 --> 00:58:16.248 particular country with where center is,
NOTE Confidence: 0.860164999961853

00:58:16.250 --> 00:58:18.826 I'd be very happy to connect them
NOTE Confidence: 0.860164999961853

00:58:18.826 --> 00:58:20.814 with our clinical Ferris staff
NOTE Confidence: 0.860164999961853

00:58:20.814 --> 00:58:22.824 and start looking at that.
NOTE Confidence: 0.860164999961853

00:58:22.830 --> 00:58:23.830 Great and
NOTE Confidence: 0.861926555633545

00:58:23.830 --> 00:58:26.340 Melinda Irwin said very positively.
NOTE Confidence: 0.861926555633545

00:58:26.340 --> 00:58:28.840 She loves the ASCO global
NOTE Confidence: 0.861926555633545

00:58:28.840 --> 00:58:29.840 oncology definition.
NOTE Confidence: 0.861926555633545

00:58:29.840 --> 00:58:32.906 I do as well and she's wondering
NOTE Confidence: 0.861926555633545

00:58:32.906 --> 00:58:36.427 if others agree with the focus on
NOTE Confidence: 0.861926555633545

00:58:36.427 --> 00:58:39.601 disparities in differences and the focus
NOTE Confidence: 0.861926555633545

00:58:39.694 --> 00:58:43.069 on implementation science and policy.
NOTE Confidence: 0.861926555633545

00:58:43.070 --> 00:58:45.562 So that's sort of a question to
NOTE Confidence: 0.861926555633545

00:58:45.562 --> 00:58:47.342 others I guess, not necessarily.
NOTE Confidence: 0.861926555633545

00:58:47.342 --> 00:58:49.478 You presumably you agree with that.
NOTE Confidence: 0.825461387634277

00:58:50.680 --> 00:58:53.096 Yeah, I mean I, you know I do.
NOTE Confidence: 0.825461387634277

00:58:53.100 --> 00:58:54.918 Of course. Of course the volunteers

NOTE Confidence: 0.825461387634277
00:58:54.918 --> 00:58:55.827 developed the definition.
NOTE Confidence: 0.825461387634277
00:58:55.830 --> 00:58:58.404 I'm just staff but but I think you do
NOTE Confidence: 0.825461387634277
00:58:58.404 --> 00:59:01.013 have to look at Holistic Lee for the
NOTE Confidence: 0.825461387634277
00:59:01.013 --> 00:59:03.409 reasons I tried to share in my talk.
NOTE Confidence: 0.890508234500885
00:59:04.640 --> 00:59:07.132 OK, well we're a little a minute
NOTE Confidence: 0.890508234500885
00:59:07.132 --> 00:59:09.949 over the hour so I think it might
NOTE Confidence: 0.890508234500885
00:59:09.949 --> 00:59:12.160 make sense to thank you again.
NOTE Confidence: 0.890508234500885
00:59:12.160 --> 00:59:14.162 Very much leisure to meet you
NOTE Confidence: 0.890508234500885
00:59:14.162 --> 00:59:15.878 and for you to reconnect with
NOTE Confidence: 0.890508234500885
00:59:15.878 --> 00:59:18.351 some of your old friends and we
NOTE Confidence: 0.890508234500885
00:59:18.351 --> 00:59:20.186 appreciate you virtually coming and
NOTE Confidence: 0.890508234500885
00:59:20.250 --> 00:59:22.178 giving this presentation today.
NOTE Confidence: 0.847961068153381
00:59:22.850 --> 00:59:24.866 Well thanks again and I apologize.
NOTE Confidence: 0.847961068153381
00:59:24.870 --> 00:59:27.182 I took so much time I meant to
NOTE Confidence: 0.847961068153381
00:59:27.182 --> 00:59:29.250 leave more time for discussion,
NOTE Confidence: 0.847961068153381

00:59:29.250 --> 00:59:31.644 but you know if there are any
NOTE Confidence: 0.847961068153381

00:59:31.644 --> 00:59:33.629 unanswered questions you have my email,
NOTE Confidence: 0.847961068153381

00:59:33.630 --> 00:59:35.320 please send them my way.
NOTE Confidence: 0.847961068153381

00:59:35.320 --> 00:59:37.216 I'd be very happy to answer
NOTE Confidence: 0.847961068153381

00:59:37.216 --> 00:59:39.960 any of that that I can and look
NOTE Confidence: 0.847961068153381

00:59:39.960 --> 00:59:41.715 forward to hearing more about
NOTE Confidence: 0.847961068153381

00:59:41.720 --> 00:59:44.077 the work of Yelling Global Ontology. Great,
NOTE Confidence: 0.847961068153381

00:59:44.077 --> 00:59:47.110 OK, so thank you Doug and thank you all.
NOTE Confidence: 0.847961068153381

00:59:47.110 --> 00:59:50.014 Bye bye thank you.
