Announcements

BIDEN CANCER COMMUNITY SUMMIT

I am looking forward to hosting **U.S. Senator Richard Blumenthal** and **U.S. Senator Chris Murphy** this afternoon at our Biden Cancer Community Summit at 2pm in the Smilow Auditorium. **Drs. Roy Herbst, Akiko Iwasaki, Craig Crews, and Ranjit Bindra** will join us for a panel discussion on cancer drug development, team science, federal funding, the cost of care, and other important topics. If you are not already registered to attend, please watch live online through [zoom](#) or listen by phone at 646-876-9923 #356 458 855; the event will also be streamed and archived on the Smilow Cancer Hospital [Facebook page](#).

Celebrating Abe Lopman

from the desk of
Charles S. Fuchs, MD, MPH

Smilow Cancer
Hospital

Yale **CANCER**
CENTER
A Comprehensive Cancer Center Designated
by the National Cancer Institute

News Center

It was an honor to join so many members of our leadership and staff yesterday in celebration of both the remarkable impact Abe has had on Smilow Cancer Hospital over the last 10 years, and our friendship with him. Abe begins his retirement today and we wish him and Suzanne much happiness in their new home in Florida. His presence in Smilow will truly be missed, but his vision will continue to leave an impression on us as we continue our mission to provide Smilow quality care for cancer patients throughout Connecticut.

New Oncology Pharmacy Opens

Earlier this month, our oncology pharmacy at Smilow reopened on NP8 and was celebrated with a ribbon cutting ceremony. The pharmacy was built to exceed all cleanliness and safety standards and uses innovative technologies, including a Kiro Oncology robot. The robot compounds chemotherapy utilizing the safety of bar code technology, digital photography, and gravimetric validation. Smilow is the only oncology hospital in the United States to use this robotic technology.

Reminder to Update Disclosures

I would like to reiterate to all faculty the importance of full disclosure in all activities. Yale University's Conflict of Interest Office requires all outside activities and financial interests to be disclosed on a [web-based disclosure form](#), even if they do not constitute a conflict of interest or conflict of commitment. Please ensure your disclosures are updated on an annual basis, and that any new external activities or financial interests are added in a timely manner.

In addition, when submitting applications for grants and manuscripts for publication, please remember to include full disclosure statements for transactional review. This is vitally important to the integrity of our research endeavors. Thank you for your attention and cooperation.

Yale Hematology Retreat

I would like to thank the hematology faculty and research scientists for joining me on September 12 at Mercy by the Sea in Madison for a productive retreat and day of planning. The brainstorming, program building ideas, and discussions that evolved throughout the day will help to plan and shape the section as we plan for 2019 and beyond. As always, I would like feedback from our faculty at any time, and hope we can continue the dialogue launched at the retreat.

Nominations for YCC Annual Awards

Yale Cancer Center is pleased to announce our call for nominations for our annual awards in the areas of excellence in research and clinical care. Each award will be announced at the Yale Cancer Center Conclave in January. The nomination deadline for all awards is Friday, October 26th.

Yale Cancer Center Research Prizes: Research Prizes will be awarded in support of excellence in the areas of basic science, clinical research, translational research, and cancer prevention and control. Awards will be chosen in each area to recognize a paper that is considered to have had the greatest impact on the field this year. The applicant must be a current member of the Cancer Center and science in the publication must be cancer-focused. Please submit a PDF of your best publication (publication date from October 2017 to October 2018). To be eligible you must be either the first or last author of the publication. Email your publication to [Anna Raso](#).

Yale Cancer Center Award for Clinical Excellence: This award will be given to the physician who best exemplifies excellence in clinical care including super clinical skills, use of a patient- and family-centered approach to care, and inclusion of a multi-disciplinary care model. Nominee must be a current member of Yale Cancer Center. Please nominate yourself or a peer and send a brief nomination letter (one-page maximum) to [Anna Raso](#).

Yale Cancer Center Lifetime Achievement Award: Yale Cancer Center recognizes the achievements of one of our

Yale Cancer Center recently put a spotlight on Erica Carbone, a Regulatory Assistant in the Clinical Trials Office. Erica stepped in for a colleague on unexpected leave, adding additional responsibilities to her own work. Erica's hard work and dedication did not go unnoticed. We are thankful for your commitment and all you do, Erica!

The National Comprehensive Cancer Network(NCCN) recently released a new list of guidelines for women with uterine cancer. Uterine cancer is the most prevalent gynecological cancer in women, and the new guidelines provide more patient-friendly content to help women better understand the disease and treatment decisions they have available. Smilow Cancer Hospital is a member of the NCCN.

senior members through our annual Lifetime Achievement award. Please send nomination suggestions for the award to [Anna Raso](#).

Ruth McCorkle Oncology Advanced Practice Provider

Award: This annual award from Yale Cancer Center/Smilow Cancer Hospital recognizes the contributions of our Nurse Practitioner and Physician Assistant colleagues who contribute so much to oncology patient care. Please consider nominating yourself or a colleague for this award. Nominations are due for the Ruth McCorkle Award to [Cathy Lyons](#) by November 30.

Notables

Joan Steitz, PhD, a member of Yale Cancer Center, Sterling Professor of Biophysics and Biochemistry at Yale School of Medicine, and mentor to generations of women scientists, is the recipient of the

2018 Lasker~Koshland Special Achievement Award in Medical Science.

The Lasker Foundation cited Steitz's pioneering role in expanding our understanding of RNA biology and her lifelong advocacy for inclusion of women in the sciences in its announcement. Steitz is a member of Yale Cancer Center's Virus and Other Infection-associated Cancers (VOIC) Research Program.

The Cancer Immunology Research Program is proud to welcome **Juan Vasquez, MD, MHS**. Dr. Vasquez is an Assistant Professor in the Department of Pediatrics (Pediatric Hematology & Oncology). He cares for children with a variety of malignancies and benign hematologic conditions, with a focus on bone and soft tissue sarcomas.

NEW GUIDELINES FOR UTERINE CANCER TREATMENT

September is Gynecological Cancer Awareness Month. According to the Center for Disease Control and Prevention, every year, more than 95,000 women in the United States are told they have a gynecologic cancer. At Smilow Cancer Hospital, our team of gynecologic oncologists are dedicated to the research, diagnosis, and treatment of all gynecological cancers and are available to support women in need of care.

We are excited to announce a new program for patients - Meaning-Centered Psychotherapy. This program helps patients who are

Dr. Vasquez's research activities are focused on the development of immunotherapies for pediatric malignancies. For the past two years, he trained in the laboratory setting under the mentorship of Dr. Kavita Dhodapkar. During this time, he learned cell culturing, T-cell stimulation, and flow cytometry. To fund this preliminary research, he was awarded a St. Baldrick's Fellow Research Grant, which provided him with salary support to continue his mentored research training as an Instructor.

Karla Neugebauer, PhD, has been appointed the new **Director** of the **Yale Center for RNA Science and Medicine**. Dr. Neugebauer is Acting Chair and Professor of Molecular Biophysics and Biochemistry, as well as a Professor of Cell Biology. She is also a member of Yale Cancer Center's Genomics, Genetics and Epigenetics Research Program.

Elena Ratner, MD, Co-Chief of the Section of Gynecologic Oncology, **joined colleagues and the Tell Every Amazing Lady (TEAL) Organization at the Greenwich, CT Town Hall** earlier this week for a Proclamation Ceremony declaring September **Ovarian Cancer Awareness Month** in Greenwich, CT.

Employee Profile: Thom Kolesar

coming and going.

Working valet for Smilow Cancer Hospital is a fast-paced, and often hectic job, but Thom Kolesar manages to keep it light-hearted and upbeat. When patients arrive for chemotherapy or radiation treatments, Thom is the first person they encounter, and he ensures that they make it safely into the hospital and then takes care of their vehicle for them, all while directing both foot and vehicle traffic in and out of the rotunda. There are fourteen dedicated spots that Thom manages, and he works to accommodate everyone

suffering side effects, such as loss

of meaning and purpose. Its unique design helps diminish feelings of despair that can be associated with cancer by emphasizing the importance of creating, reconnecting with, and sustaining meaning in life. Space is limited, please call (203) 200-6360 for more information.

[Read More >>](#)

September is Childhood Cancer Awareness Month! Each day, 43 families in the United States receive news that their child has cancer. At Smilow, our Pediatric Hematology and Oncology Program offers infants, children and young adults with cancer and blood disorders the best opportunity for accurate diagnosis and the most effective treatment options available. Thank you to our physicians and their entire team for the care they provide to these children and their families each day!

[Read More >>](#)

At the start of every day, Thom receives a list of patients that will be coming for treatment. He identifies those that will need special assistance, such as a wheelchair, and makes sure they are taken care of as soon as they pull up. Patients know to look for him too, and that he can help with or handle any situation that is thrown his way. Recently, Thom noticed a woman pull up that was having a medical issue. Without hesitating, he moved her to the passenger seat and drove her to the Emergency Department and got help. It turns out she was having a heart attack and Thom likely saved her life. Although he commented, "I only got her to the right people to save her life."

"I am humbled to be able to work here and interact with such amazing people. I have been blessed with good health my entire life, and working here has really changed my perspective," said Thom. "The tenacity and courage that I see on a daily basis is truly inspiring. I am very thankful."

Thom's hard work and consideration for every patient does not go unnoticed by patients and staff alike. He was recently recognized by two Ambulatory Care Assistants on Smilow 8 who commented, "Thom's patient encounters are beyond compare. He is thoughtful, kind, hardworking, and truly a caring person. He is delightful and makes all those around him smile; whether it is a fellow employee, patient, doctor, or just a passerby. Thom is a life changer!"

Funding Opportunities

Secondary Analysis and Integration of Existing Data to Elucidate the Genetic Architecture of Cancer Risk and Related Outcomes (R01)
